1. Identification

Product identifier: CGC Strait-Flex® Medium/Original Drywall Inside Corner Flex Tape, Outlet Patch, Perma-Patch

Other means of identification
- SDS number: 18001010002
- Recommended use: Interior use.
- Recommended restrictions: Use in accordance with manufacturer's recommendations.

Manufacturer/Importer/Supplier/Distributor information
- Company name: CGC Inc.
- Address: 350 Burnhamthorpe Road West, 5th Floor
  Mississauga, Ontario L5B 3J1
  A Subsidiary of USG Corporation
- Telephone: 1-800-387-2690
- Website: www.cgcinc.com
- Emergency phone number: 1-888-747-0220

2. Hazard(s) identification

Physical hazards: Not classified.
Health hazards: Not classified.
Environmental hazards: Not classified.

Label elements
- Hazard symbol: None.
- Signal word: None.
- Hazard statement: The mixture does not meet the criteria for classification.

Precautionary statements
- Prevention: Observe good industrial hygiene practices.
- Response: Wash hands after handling.
- Storage: Store away from incompatible materials.
- Disposal: Dispose of in accordance with federal, provincial and local regulations.

Other hazards: None known.

Supplemental information: None.

3. Composition/information on ingredients

Mixtures

<table>
<thead>

<td>&lt; 91</td>
</tr>
</tbody>
</table>

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact: Wash with mild soap and water. If irritation persists, contact physician.

Eye contact: Rinse immediately with plenty of water for at least 15 minutes. Get medical attention if irritation develops and persists.

Ingestion: Not intended to be ingested or eaten. Do not induce vomiting. Get medical attention if irritation develops and persists.
Under normal conditions of intended use, this material does not pose a risk to health.

Most important symptoms/effects, acute and delayed

Indication of immediate medical attention and special treatment needed

General information

Treat symptomatically.

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media

Dry chemical. Carbon dioxide (CO2).

Unsuitable extinguishing media

Not applicable.

Specific hazards arising from the chemical

Not a fire hazard.

Special protective equipment and precautions for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions

Use water spray to cool unopened containers.

Specific methods

Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards

No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

No special precautions are necessary beyond normal good hygiene practices. See Section 8 of the SDS for additional personal protection advice when handling this product.

Methods and materials for containment and cleaning up

No specific clean-up procedure noted. For waste disposal, see Section 13 of the SDS.

Environmental precautions

Avoid discharge to drains, sewers, and other water systems.

7. Handling and storage

Precautions for safe handling

Avoid contact with skin and eyes. Wear appropriate personal protective equipment. Use good safety and industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated place. Keep away from heat, sparks, and flame. Keep away from moisture. Thermal degradation does not occur at low temperatures, but becomes faster at higher temperatures. To prevent brittleness, store in temperatures above freezing.

8. Exposure controls/personal protection

Occupational exposure limits

Biological limit values

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection
Wear safety glasses with side shields (or goggles).

Skin protection
Hand protection
Not normally needed.

Other
No skin protection is ordinarily required under normal conditions of use.

Respiratory protection
No personal respiratory protective equipment normally required.

Thermal hazards
None.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state
Solid.

Form
Roll.

Colour
White.

Odour
Odourless.

Odour threshold
Not applicable.

pH
Not applicable.

Melting point/freezing point
Not determined.

Initial boiling point and boiling range
Not applicable.

Flash point
Not applicable.

Evaporation rate
Not applicable.

Flammability (solid, gas)
Non flammable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)
Not applicable.

Flammability limit - lower (%) temperature
Not applicable.

Flammability limit - upper (%)
Not applicable.

Flammability limit - upper (%) temperature
Not applicable.

Explosive limit - lower (%)
Not applicable.
Explosive limit - lower (%) temperature  Not applicable.
Explosive limit – upper (%) Not applicable.
Explosive limit – upper (%) temperature  Not applicable.
Vapour pressure  Not applicable.
Vapour density  Not applicable.
Relative density  Not applicable.
Solubility(ies)
   Solubility (water)  Insoluble in water.
Partition coefficient (n-octanol/water)  Not applicable.
Auto-ignition temperature  Not applicable.
Decomposition temperature  Not applicable.
Viscosity  Not applicable.
Other information
   Bulk density  Not applicable.
   Explosive properties  Not explosive.
   Oxidising properties  Not oxidising.

10. Stability and reactivity
Reactivity  The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability  Material is stable under normal conditions.
Possibility of hazardous reactions  No dangerous reaction known under conditions of normal use.
Conditions to avoid  None known.
Incompatible materials  None known.
Hazardous decomposition products  No hazardous decomposition products are known.

11. Toxicological information
Information on likely routes of exposure
   Inhalation  Not likely, due to the form of the product.
   Skin contact  Under normal conditions of intended use, this product does not pose a skin hazard.
   Eye contact  Direct contact with eyes may cause temporary irritation.
   Ingestion  Not likely, due to the form of the product.
Symptoms related to the physical, chemical and toxicological characteristics
   Under normal conditions of intended use, this material does not pose a risk to health.
Information on toxicological effects
   Acute toxicity  None known.
   Skin corrosion/irritation  Prolonged skin contact may cause temporary irritation.
   Serious eye damage/eye irritation  Direct contact with eyes may cause temporary irritation.
Respiratory or skin sensitisation
   Respiratory sensitisation  No data available.
   Skin sensitisation  Not a skin sensitiser.
Germ cell mutagenicity  No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity  A4 Not classifiable as a human carcinogen.

ACGIH Carcinogens
   Polyvinyl chloride (CAS 9002-86-2)  A4 Not classifiable as a human carcinogen.
Canada - Manitoba OELs: carcinogenicity
Polyvinyl chloride (CAS 9002-86-2) Not classifiable as a human carcinogen.

IARC Monographs. Overall Evaluation of Carcinogenicity
Polyvinyl chloride (CAS 9002-86-2) 3 Not classifiable as to carcinogenicity to humans.

Reproductive toxicity
This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure
No data available, but none expected.

Specific target organ toxicity - repeated exposure
No data available, but none expected.

Aspiration hazard
Not an aspiration hazard.

12. Ecological information

Ecotoxicity
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability
No data is available on the degradability of this product.

Bioaccumulative potential
None expected.

Mobility in soil
The product is not mobile in soil.

Other adverse effects
No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions
Dispose of in accordance with federal, provincial and local regulations. Recycle responsibly.

Local disposal regulations
Dispose of in accordance with local regulations.

Hazardous waste code
Not regulated.

Waste from residues / unused products
Dispose of in accordance with local regulations.

Contaminated packaging
Dispose of in accordance with local regulations.

14. Transport information

TDG
Not regulated as dangerous goods.

IATA
Not regulated as dangerous goods.

IMDG
Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable.

15. Regulatory information

Canadian regulations
This product has been classified in accordance with the hazard criteria of the HPR and the SDS contains all the information required by the HPR.

Controlled Drugs and Substances Act
Not regulated.

Export Control List (CEPA 1999, Schedule 3)
Not listed.

Greenhouse Gases
Not listed.

Precursor Control Regulations
Not regulated.

International regulations

Stockholm Convention
Not applicable.

Rotterdam Convention
Not applicable.
Kyoto protocol  
Not applicable.
Montreal Protocol  
Not applicable.
Basel Convention  
Not applicable.
