Founded in 1902

L&W Supply Corporation

- is a subsidiary of USG Corporation.
- was formed by United States Gypsum Company in 1971 to provide an efficient distribution and service network for independent builders and subcontractors.
- is the nation's largest specialty distributor of Wallboard, Steel Studs, Acoustical Ceilings and Exterior Insulation Finishing Systems (EIFS).
- is a growing presence in Insulation, Fasteners, Joint Treatment, Fiberglass Reinforced Panels (FRP), Tools and Roofing.
- operates approximately 155 distribution locations in 37 states and virtually every metropolitan market.
- supplies approximately 8 percent of all gypsum board sold in the United States.
- reported net sales of \$1.1 billion in 2011.
- employs approximately 2,100 people.
- operates a fleet of more than 1,000 heavy-duty and light-duty trucks that deliver building materials to job sites across the country.
- specializes in delivering and stocking wallboard, joint treatment, acoustical ceiling panels, ceiling suspension systems, drywall steel, insulation, roofing products and other building materials.
