### **PRODUCT SAFETY AND SECURITY STATEMENT**

United States Gypsum Company manufactures the following two Food & Pharmaceutical Grade, calcium sulfate fillers at the Southard, Oklahoma plant.

- **Terra Alba**, F&P — calcium sulfate dihydrate
- **SNOW WHITE® Filler**, F&P — anhydrous calcium sulfate
- **Food Grade Hydrus Calcium Sulfate**- calcium sulfate dihydrate

These products are manufactured from high purity, naturally occurring calcium sulfate dihydrate (gypsum). Processing is limited to fine grinding, air classification and/or high temperature exposure.

The Southard, OK plant, which only manufactures gypsum based products, has been registered in accordance with the Bioterrorism Act of 2002. It adheres to Good Manufacturing Practices (GMP), is ISO 9001 :2000 certified and follows a Hazard Analysis Critical Control Point (HACCP) program.

The following statements apply:

- These products are Kosher certified through the Chicago Rabbinical Council.
- These products do not contain any allergens and have not come into contact with any allergens. Furthermore, there is no known allergen containing product manufactured or stored at the Southard, Oklahoma plant.
- These products are not derived from or formulated with any bovine or bovine derived products.
- These products are not derived from or formulated with any genetically modified organisms (GMO).
- These products are not irradiated or subjected to ETO sterilization.
- These products do not contain or come in contact with any additives or organic solvents.
- There is no sewage sludge or sewage treatment facility in proximity of the manufacturing plant.
