# Compässo™ Suspension Trim

**Enhance any space with a pre-engineered suspension trim that ensures easy installation.**

New extruded aluminum Compässo Elite is the latest addition to the expanding Compässo portfolio of ceiling trim systems. It offers the ability to quickly and easily create beautiful, free-form island ceilings using standard USG ceiling panels and suspension systems.

- Define spaces with crisp, clean island ceilings featuring standard USG ceiling systems
- Achieve all the benefits of acoustical suspension systems compared to drywall soffits—sound control, accessibility and the use of lay-in fixtures
- Made-to-order finished designs are supplied in kit form with shop drawings for easy field assembly, with no special tools required
- Pre-engineered trim eliminates field cutting
