Re: USG Securock Firecode X Glass Mat Sheathing

Dear Dan:

We have completed our evaluation of USG Securock Firecode X Glass Mat Sheathing as a compatible substrate for use with our Dryvit Outsulation® family of systems. Testing indicates compatibility of both water-resistive barrier coatings and our various adhesives.

Based on the above, USG Securock Firecode X Glass Mat Sheathing is an acceptable substrate for use with the Dryvit Outsulation systems.

Should you have any questions, please feel free to contact me.

Sincerely,

Derick Wiaderski **LEED® AP**
Sr. Staff Architect
