Dear Mr. Baker,

I am writing in regards to testing Titebond Greenchoice Advanced Polymer Panel Adhesive (#4319) for installing FRP to Securock Sheathing. Titebond Greenchoice Advanced Polymer Panel Adhesive provided a great bond when used to adhere FRP to Securock Sheathing and is recommended for use on Securock Sheathing.

I hope this information is helpful, and ask you to call me at 1-800-347-4583 with any additional questions.
