

# Quick Facts

## USG Securock® Glass-Mat Sheathing

City Creek Building, Salt Lake City

Marriott Hotel West Energy, Houston

### Acceptance Letters

BASF  
Carlisle  
DOW  
Dryvit®  
Energex  
GE Sealant  
Henry Air Bloc  
Henry Blueskin SA  
ITW Ramset  
Parex  
Pecora  
Polyguard  
Rubber Polymer  
Rydar  
Sonneborn  
Sto®  
STS Coating  
Tremco  
WR Grace  
WR Meadows

### Specify Peace of Mind

Protect your buildings with the high performance and service you've come to expect from USG.

SECUROCK® glass-mat sheathing is a quality non-combustible, moisture- and mold-resistant panel designed for use under exterior claddings, such as brick veneer, properly detailed EIFS, clapboard siding, panel siding, shingle siding, shake siding and conventional stucco.

The panels feature a moisture- and mold-resistant gypsum core encased in a glass-mat facer on both sides and achieve a 10 rating when tested per ASTM D3273 (*Standard Test Method for Resistance to Growth of Mold on the Surface of Interior Coatings in an Environmental Chamber*).

SECUROCK glass-mat sheathing panels are available in both 1/2" and 5/8" FIRECODE® Type X.

### Warranted Performance

SECUROCK glass-mat sheathing panels can be exposed to the elements for up to 12 months after installation and are guaranteed for five years against manufacturing defects.

### Meets Industry Standards

- Compliant with ASTM C1177 (*Standard Specification for Glass-Mat Gypsum Substrate for Use as Sheathing*) and ASTM C1396 (*Standard Specification for Gypsum Board*).
- 5/8" panels meet the requirements of Type X as defined in ASTM C1396 and ASTM C1177 when tested in accordance with ASTM E119.
- UL Classified as to fire resistance, recognized as UL designation USGX included in 65 UL designs for steel- and wood-framed assemblies. Visit [ul.com](http://ul.com) or [usgdesignstudio.com](http://usgdesignstudio.com).
- Fully complies with major model codes: IBC/IRC, Florida – Miami Dade County NOA, City of Los Angeles.
- Product Evaluation Report available from Progressive Engineering Inc at [p-e-i.com/reports.html](http://p-e-i.com/reports.html).
- Approved for use with air- and water-resistive systems and by leading EIFS companies. For copies of the SECUROCK glass-mat sheathing acceptance letters, please click on the following hyperlink:
