Performance Comparison

Donn M7 Overlapping Wall Angle

Overlap detail sits on adjacent trim, providing extra support for quicker, easier installation. The overlap ensures that trim faces are level, and it eliminates the unsightly gap created by traditional butt joints.

Traditional Wall Angle

With no support between lengths of trim, traditional wall angle is more difficult to install. Butt-cut wall angle is also subject to misalignment of trim faces and gaps at joints.

Physical Data/ Footnotes

Product literature
 Sell sheet: AC3232

Material
 Hot-dipped galvanized steel body.

Recycled content
 25%. For details, see the Sustainability selector.

Installation
 Must be installed in compliance with ASTM C636, CISCA, and standard industry practices.

ICC Evaluation Service, Inc., Report Compliance
 Suspension systems manufactured by USG Interiors, LLC, have been reviewed and are approved by listing in ICC-ES Evaluation Reports. Evaluation Reports are subject to reexamination, revision and possible cancellation. Please refer to USGDesignStudio.com or 800 USG.4YOU for current reports.

L.A. Research Report Compliance
 Donn brand suspension systems manufactured by USG Interiors, Inc., have been reviewed and are approved by listing in one or more of the following L.A. Research Report numbers: 22179, 23451, 24095.

Footnotes
 1. Dependent on location; contact your USG representative.
 2. For more information about moldings, see the Perimeter Interface selector.
 3. Panels must be field-cut to size and field-revealed, where necessary, at the perimeter.
