

Project Profile

Innovative Ceiling Systems adds visual appeal to Toyota Dealership Showroom

Project Name:

Toyota Dealership

Application/Building Type:

Retail

Location:

Richmond, British Columbia

Architect:

Kasian Architecture Interior Design and Planning Ltd.

Contractor:

New Image Contracting Ltd.

Featured Products:

CGC Celebration™ Metal Ceiling Panel System with Engineered Compasso™

“CGC Celebration™ panels, are quick and easy to install. It was a fun project to work on. Toyota was happy with the way CGC products formed circles and filled in the open spaces, accenting the openness.”

*- Lance Carlson from
New Image Contracting
Ltd.*

Compasso™ perimeter trim is used to create free-form island ceilings or fascias in conjunction with CGC Celebration™ metal panels. With its ability to create a variety of curves and shapes, Compasso™ perimeter trim can be used to define space and provide dramatic visual impact.

Other CGC products on this project include, CGC Olympia Micro™ ClimaPlus™, DONN® DX®/DXL™ Suspension System.
