IT'S YOUR WORLD. BUILD IT.™

At CGC, our commitment to manufacturing the highest quality wallboard is only matched by our dedication to fostering job site efficiency and safety. It's the reason we print performance characteristics and Underwriters Laboratories Inc. (cUL) Type Designations in the field of our panels. By making them more identifiable to contractors and installers, you can be sure that you quickly find the information you need to get the job done right the first time.

Printing in the field also makes it easier for code officials to identify the panels by their designation. Even after the joints are finished, this will confirm that the right panels are installed in the correct locations, ensuring the integrity of the building and the safety of its occupants.

NOTE
Products described here may not be available in all geographic markets. Consult your CGC Inc. sales office or representative for information. The information in this document is subject to change without notice. CGC Inc. assumes no responsibility for any errors that may inadvertently appear in this document.

NOTICE
We shall not be liable for incidental and consequential damages, directly or indirectly sustained, nor for any loss caused by application of these goods not in accordance with current printed instructions or for other than the intended use. Our liability is expressly limited to replacement of defective goods. Any claim shall be deemed waived unless made in writing to us within thirty (30) days from date it was or reasonably should have been discovered.

SAFETY FIRST
Follow good safety and industrial hygiene practices during handling and installation of all products and systems. Take necessary precautions and wear the appropriate personal protective equipment as needed. Read Safety Data Sheets (SDS) and related literature on products before specification and/or installation.
