

CGC SECUROCK® BRAND GLASS-MAT SHEATHING REGULAR AND FIRECODE® X LIMITED WARRANTY

WHAT IS COVERED?

CGC Inc. warrants that its CGC Securock® Brand Glass-Mat Sheathing (“Product”) shall be free from defects in the manufacture of materials and meets or exceeds all the criteria for ASTM C1177. In particular, CGC Securock Glass-Mat Sheathing meets all the performance parameters described in CGC data sheet EWB2452. The specific claims in the data sheet are incorporated by reference in this warranty.

This warranty extends to dealers who sell our products, contractors who install our products, and all owners of the building within the warranty period.

In addition, CGC further warrants to the contractor installing the Product that it will not delaminate or deteriorate for up to 12 months after installation, but before the exterior cladding is installed on the building, with the exceptions of hurricanes, tropical storms, tornadoes, high winds, hailstorms, earthquakes, sandstorms, and immersion pooling or cascading of water.

HOW LONG DOES COVERAGE LAST?

The warranty against all defects in manufacturing runs for a period of five years beginning on the date of installation of the Product in the building. If the Product is installed as a substrate to a warranted EIFS cladding, then the manufacturing defects warranty for CGC’s Product shall be coterminous to, i.e., run as long as the warranty of the EIFS manufacturer however, not to exceed 10 years, provided that all conditions of the EIFS warranty are met. The contractor-specific warranty relating to installation of the Product before the exterior cladding is installed runs for a period of 12 months from the time the Product is installed.

WHAT IS NOT COVERED?

CGC Inc. shall not be responsible for any loss resulting from any of the following:

- Storage and installation practices not in accordance with CGC’s published recommendations and specifications (see CGC data sheet EWB2452).
- Structural movement or defects in the manufacture or application of other manufacturers’ materials.

- Failure of the owner to maintain the building with reasonable care.
- Use of CGC Securock Glass-Mat Sheathing as a substrate for any exterior coatings that are directly applied to the panel surface (excluding protected soffit areas).

EXCLUSION OF OTHER WARRANTIES; LIMITATION OF DAMAGES; EFFECT OF PROVINCIAL LAW

This warranty states the full extent of CGC’s responsibility for defects in the Product and all other warranties, especially warranties of fitness for a particular purpose or merchantability, are hereby disclaimed. Consequential and incidental damages are not covered under this warranty.

Some provinces do not allow the exclusion or limitation of warranties or do not allow the exclusion or limitation of incidental or consequential damages, so the above disclaimers may not apply to you.

WHAT WILL CGC INC. DO?

CGC Inc. will, at its option, replace the goods or refund the purchase price, and, where the Product has already been installed, pay reasonable labour costs to fix damage caused by a defect in the Product, up to a maximum amount equal to two (2) times the original uninstalled purchase price of the nonconforming panels.
