SAFETY DATA SHEET

1. Identification

1. Idontinoution			
Product identifier	CGC Sheetrock® Brand All Purpose Drywall Compound		
Other means of identification			
SDS number	61001010004		
Synonyms	Joint Compound (Ready-Mixed), Taping Compound, Mud, Finishing Compound		
Recommended use	Interior use.		
Recommended restrictions	Use in accordance with manufacturer's recommendations.		
Manufacturer/Importer/Supplier/	Distributor information		
Company name	CGC Inc.		
Address	735 Fourth Line		
	Oakville, ON L6L 5B7		
	A Subsidiary of USG Corporation		
Telephone	(English) 1-800-387-2690 (Francais) 1-800-361-1310		
Website	www.cgcinc.com		
Emergency phone number	1-800-507-8899		
2. Hazard identification			
Physical hazards	Not classified.		
Health hazards	Not classified.		
Label elements			
Hazard symbol	None.		
Signal word	None.		
Hazard statement	None.		
Precautionary statement			
Prevention	Observe good industrial hygiene practices.		
Response	Get medical attention/advice if you feel unwell.		
Storage	Store as indicated in Section 7.		
Disposal	Dispose of in accordance with federal, provincial and local regulations.		
Other hazards	None known.		

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
Limestone		1317-65-3	60 - 80
Attapulgite		12174-11-7	1 - 5

Composition comments

All concentrations are in percent by weight.

Raw materials in this product contain respirable crystalline silica as an impurity. Independent, third party industrial hygiene testing of this product and its constituents suggests that under normal conditions the expected use of this product will not result in exposure to respirable crystalline silica that exceeds the OSHA PEL (which is equivalent to the Quebec OEL of 0.05 mg/m³). However, actual exposures to respirable crystalline silica on a given jobsite must be determined by workplace hygiene testing.

4. First-aid measures

Inhalation	Dust irritates the respiratory system, and may cause coughing and difficulties in breathing. Move injured person into fresh air and keep person calm under observation. Get medical attention if symptoms persist.
Skin contact	Contact with dust: Rinse area with plenty of water. Get medical attention if irritation develops or persists.
Eye contact	Dust in the eyes: Do not rub eyes. Flush thoroughly with water. If irritation occurs, get medical assistance.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Under normal conditions of intended use, this material does not pose a risk to health. Dust may irritate throat and respiratory system and cause coughing.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved.
5. Fire-fighting measures	
Suitable extinguishing media	Use fire-extinguishing media appropriate for surrounding materials.
Unsuitable extinguishing media	Not applicable.
Specific hazards arising from the chemical	Not a fire hazard.
Special protective equipment and precautions for firefighters	Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Use standard firefighting procedures and consider the hazards of other involved materials.
Specific methods	Cool material exposed to heat with water spray and remove it if no risk is involved.
General fire hazards	No unusual fire or explosion hazards noted.
6. Accidental release meas	ures
Personal precautions, protective equipment and emergency procedures	See Section 8 of the SDS for Personal Protective Equipment.
Methods and materials for containment and cleaning up	Large Spills: Scoop spilled materials and recover as much of the product as possible for use. If spillage is unrecoverable dispose according to local, provincial, and federal regulations.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
Environmental precautions	Avoid discharge to drains, sewers, and other water systems.
7. Handling and storage	
Precautions for safe handling	Avoid inhalation of dust and contact with skin and eyes. Minimise dust generation and accumulation. In case of insufficient ventilation, wear suitable respiratory equipment. Observe good industrial hygiene practices. Use proper lifting techniques.
Conditions for safe storage, including any incompatibilities	Store in a cool, dry, well-ventilated place. Store in a closed container away from incompatible materials. Protect from moisture. Keep away from heat. Do not use if material has spoiled, i.e., there is a mouldy appearance or an unpleasant odour. Keep containers closed when not in use.
	Filled cartons and pails of joint compound may be stacked a maximum of 3 layers high on a pallet. Pallets may only be stacked a maximum of two high.
8. Exposure controls/perso	onal protection

o. Exposure controls/personal protect

Occupational exposure limits

Canada. Alberta OELs (Occupational Health & Safety Code, Schedule 1, Table 2)			
Components	Туре	Value	
Limestone (CAS 1317-65-3)	TWA	10 mg/m3	

Components	Туре	Value	Form
Limestone (CAS 1317-65-3)	STEL	20 mg/m3	Total dust.
	TWA	3 mg/m3	Respirable fraction.
		10 mg/m3	Total dust.
Canada. Quebec OELs. (Mir	stry of Labor - Regulation respecting occupational health and safety)		
Components	Туре	Value	Form
Attapulgite (CAS 12174-11-7)	TWA	1 fibers/cm3	Fiber.
Limestone (CAS 1317-65-3)	TWA	10 mg/m3	Total dust.
Canada. Saskatchewan OEL Components	s (Occupational Health and Safety R. Type	egulations, 1996, Table 21) Value	
Limestone (CAS 1317-65-3)	15 minute	20 mg/m3	
	8 hour	10 mg/m3	
logical limit values	No biological exposure limits noted for	r the ingredient(s).	
propriate engineering trols	Provide sufficient ventilation for opera exposure limits and minimise the risk		Observe occupational
vidual protection measures,	such as personal protective equipm	ent	
Eye/face protection	Wear approved safety goggles.		
Skin protection			
Hand protection	It is a good industrial hygiene practice contact use suitable protective gloves	e to minimise skin contact. For a.	prolonged or repeated skir
Other	Normal work clothing (long sleeved s	hirts and long pants) is recomm	nended.
Respiratory protection	If engineering controls do not maintai limits (where applicable) or to an acce been established), an approved respi purifying respirator as needed to cont determine respirator selection, use, a for uncontrolled releases or when air respirator protection program required use.	eptable level (in countries when rator must be worn. Use a NIC rol exposure. Consult with resp nd limitations. Use positive pre purifying respirator limitations	e exposure limits have not SH/MSHA approved air birator manufacturer to ssure air supplied respirate may be exceeded. Follow
Thermal hazards	None.		
neral hygiene siderations	Always observe good personal hygie and before eating, drinking, and/or sr equipment separately from regular wa	noking. Routinely wash work c	othing and protective

9. Physical and chemical properties

Appearance	
Physical state	Semi-solid.
Form	Paste.
Colour	Off-white.
Odour	Low to no odour.
Odour threshold	Not applicable.
рН	7.5 - 9.9
Melting point/freezing point	Not applicable.
Initial boiling point and boiling range	Not applicable.
Flash point	Not applicable.
Evaporation rate	Not applicable.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or expl	osive limits
Flammability limit - lower (%)	Not applicable.

	Flammability limit - upper (%)	Not applicable.
	Explosive limit - lower (%)	Not applicable.
	Explosive limit – upper (%)	Not applicable.
Va	pour pressure	Not applicable.
Va	pour density	Not applicable.
Re	lative density	1.4 - 1.8 (H2O=1)
So	lubility(ies)	
	Solubility (water)	Soluble.
	rtition coefficient octanol/water)	Not applicable.
Au	to-ignition temperature	Not applicable.
De	composition temperature	Not applicable.
Vis	scosity	Not applicable.
Otl	her information	
	Bulk density	1.4 - 1.8 kg/l
	VOC	2 g/l
10	Stability and reactivity	

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerisation does not occur.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidising agents.
Hazardous decomposition products	Above 800°C (1472°F) limestone (CaCO3) can decompose to lime (CaO) and release carbon dioxide (CO2).

11. Toxicological information

Information on likely routes of exposure

Inhalation	Airborne dust may irritate throat and upper respiratory system causing coughing.		
Skin contact	Prolonged or repeated contact may dry skin and cause irritation.		
Eye contact	Airborne dust may cause mechanical eye irritation.		
Ingestion	May cause discomfort if swallowed.		
Symptoms related to the physical, chemical and toxicological characteristics	Dust may irritate eyes and mucous membranes of the nose, throat and upper respiratory system causing sneezing and/or coughing.		
Information on toxicological effe	octs		
Acute toxicity	Not expected to be a hazard under normal conditions of intended use.		
Skin corrosion/irritation	Prolonged or repeated skin contact may cause drying, cracking, or irritation.		
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.		
Respiratory or skin sensitisation			
Canada - Alberta OELs: Irritant			
Limestone (CAS 1317-65-	-3) Irritant		
Respiratory sensitisation	Not a respiratory sensitiser.		
Skin sensitisation	This product is not expected to cause skin sensitisation.		
Germ cell mutagenicity	Data does not suggest that this product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity	This product is not expected to increase the risk of cancer.		
Canada - Quebec OELs: Car Attapulgite (CAS 12174-1			

IARC Monographs. Overall Evaluation of Carcinogenicity

Attapulgite (CAS 12174-1	,	2B Possibly carcinogenic to humans. 3 Not classifiable as to carcinogenicity to humans.
Reproductive toxicity Not expected to be a reprodu		ve hazard.
Specific target organ toxicity - single exposure	No data available, but none expected.	
Specific target organ toxicity - repeated exposure	Not classified.	
Aspiration hazard	Not an aspiration hazard.	
Chronic effects	Prolonged inhalation may be ha	rmful.
Further information	No additional adverse health eff	ects noted.

12. Ecological information

Ecotoxicit	v
LOOLOXION	

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Persistence and degradability No data available. Bioaccumulation is not expected. **Bioaccumulative potential** No data available. Mobility in soil Other adverse effects None expected.

13. Disposal considerations

Disposal instructions	Dispose of in accordance with federal, provincial and local regulations. Recycle responsibly.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Dispose of in accordance with local regulations.
Contaminated packaging	Dispose of in accordance with local regulations.

14. Transport information

TDG

Not regulated as dangerous goods.

ΙΑΤΑ

Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

15. Regulatory information

Canadian regulations

This product has been classified in accordance with the hazard criteria of the HPR and the SDS contains all the information required by the HPR.

Controlled Drugs and Substances Act

Not regulated. Export Control List (CEPA 1999, Schedule 3) Not listed. **Greenhouse Gases** Not listed. **Precursor Control Regulations** Not regulated. International regulations **Stockholm Convention** Not applicable. **Rotterdam Convention**

Not applicable.

Kyoto Protocol Not applicable. **Montreal Protocol** Not applicable. **Basel Convention** Not applicable.
