# USG DUROCK™ CST™ MOISTURE VAPOR REDUCER

Disruptive technology – reacts with concrete to create a permanent moisture barrier 2-4 mm below the surface.

- Single-component moisture vapor reducer for interior, exterior, horizontal, above- and below-grade applications
- Dries in as little as 1 hour
- Maintains surface profile for optimal bond of patching and leveling compounds and coatings
- Effective at managing MVER up to 10 lbs. (ASTM F1869) and RH up to 99% (ASTM F2170); maintains a consistent pH at the surface

For more information, see *USG Durock™ Brand CST™ Moisture Vapor Reducer Submittal* (CB5257) at [usgperformanceflooring.com](http://usgperformanceflooring.com).
