USG DUROCK™ ECOCAP™ HT SELF-LEVELING TOPPING

Top this – an interior and exterior self-leveling, self-drying cementitious product that is 100% moisture tolerant.

- Ideal for applications over concrete with 100% RH and up to 14 pH
- High tolerance to freeze/thaw cycles, de-icing salts and moisture exposure
- No mechanical preparation required for most applications
- Rapid-setting—open to light foot traffic in approximately 2 hours
- Installation of ceramic tile and natural stone in 4 hours; other floor coverings in 16 hours
- Featheredge to 2 in. (51 mm) neat; extendable to 5 in. (127 mm) with aggregate
