AN UNRIVALED FINISH. EVERY TIME.

USG SHEETROCK® BRAND INTERIOR FINISHING PRODUCTS

usg.com
At USG, we know that settling for “good enough” is never an option. You need reliable, high-quality products that you can depend on every time.

For more than 100 years, USG has been the leading manufacturer of the highest-performing building materials within the industry. So you can trust that when you choose our products, you’re always getting the best possible quality.

We offer finishing products specifically designed to meet your needs, and a full portfolio that provides unique and adaptable solutions for a variety of environments.

Beyond outstanding products, we also offer expertise, technical support and nationwide availability. All driven by a dedication to finding solutions for you. Plus, we have the technology and manufacturing capabilities to ensure our products exceed industry standards before ever being used.
AN UNRIVALED™ PORTFOLIO

Whether you prefer a lightweight, conventional weight, or airborne dust reducing joint compound, USG has a solution specifically formulated to meet your needs – wherever you are.

For more than 100 years, our customers have relied on USG to develop and deliver high-performing products. With nearly 200 years of combined formulation experience – and a manufacturing network that spans the country – USG Sheetrock® Brand Joint Compounds provide you with the largest portfolio in the industry, all backed by nationwide distribution.

JOINT COMPOUNDS

READY-MIX JOINT COMPOUNDS
USG ready-mixed joint compounds are preferred for consistently high-quality work. Superior formulations are premixed to a creamy, smooth consistency and are essentially free of crater-causing air bubbles. USG ready-mixed joint compounds can be used in hand or machine-tool applications and offer excellent slip, bond, and easy workability. Most USG joint compound products are GREENGUARD GOLD certified. Please review product data available at usg.com or usg.ecomedes.com for product specific compliance.

CONVENTIONAL WEIGHT

USG SHEETROCK® BRAND ALL PURPOSE JOINT COMPOUND
- Combines single-package convenience with good taping and finishing performance
- Recommended for skim coating and for laminating and repairing cracks in interior plaster and masonry not subject to moisture
- Great open time and cold bond
- Smooth and slick properties

PRODUCT DATA
AVAILABLE IN:
1.75 pt. tub, 3.5 qt. pail, 4.5 gal. pail, 3.5 gal. carton, 4.5 gal. carton*

REGIONAL AVAILABILITY:
Phoenix / Sigurd / Torrance

USG SHEETROCK® BRAND TOTAL™ JOINT COMPOUND
- Smoother working and sands more easily than most other conventional-weight compounds
- Offers excellent bond over bead, trim and fastener concealments
- Special formulation is ideal for embedding tape and for filling, leveling and finishing over gypsum panel joints, fasteners, bead and trim

PRODUCT DATA
REGIONAL AVAILABILITY:
Phoenix / Sigurd / Torrance
AVAILABLE IN:
3.5 gal. carton

USG SHEETROCK® BRAND TAPING JOINT COMPOUND
- High-performance compound for embedding tape
- Ideal for patching plaster cracks and for use on most gypsum board when maximum bond and crack resistance are essential
- Best ready-mixed compound for laminating and is ideal for use in most major tools

PRODUCT DATA
REGIONAL AVAILABILITY:
Auburn / Torrance
AVAILABLE IN:
3.5 gal. carton

USG SHEETROCK® BRAND TOPPING JOINT COMPOUND
- Excellent finishing compound with superior crater resistance
- Easily applied and sanded
- Recommended for second and third coats
- Note: Do not use to embed joint tape, to skim coat, or fill metal bead and trim

PRODUCT DATA
REGIONAL AVAILABILITY:
Auburn / East Chicago / Fort Dodge / Gypsum / Phoenix / Sigurd / Torrance
AVAILABLE IN:
4.5 gal. pail, 3.5 gal. carton

FINISHING SOLUTIONS
Offering the industry’s broadest selection of finishing solutions, our high-quality joint compounds, joint tapes, beads and trims deliver superior performance for every job, every time. Whether you’re taping, applying a finish coat or patching a crack, there is a USG finishing product to meet your needs.
**CONVENTIONAL WEIGHT CONT.**

**USG Beadex® Brand All Purpose Joint Compound**
- Combines single-package convenience with good taping and topping performance
- Ideal for embedding and finishing, hand-applied simple texturing, skim coating, laminating and repairing cracks in interior plaster and masonry not subject to moisture

**Product Data**
- Regional Availability: Auburn
- Available in: 4.5 gal. pail, 3.5 gal. carton

**USG Beadex® Brand Taping Joint Compound**
- High-performance compound for embedding tape
- Best ready-mixed compound for laminating
- Recommended for skim coating on most gypsum board where maximum bond is essential

**Product Data**
- Regional Availability: Auburn
- Available in: 3.5 gal. carton

**USG Beadex® Brand Topping Joint Compound**
- Excellent finishing compound with superior crater resistance
- Recommended for second and third coats over USG Beadex® Brand Taping and All Purpose Compounds
- Note: Do not use to embed joint tape or for the first coat over metal beads and trim

**Product Data**
- Regional Availability: Auburn
- Available in: 3.5 gal. carton

**MIDWEIGHT**

**USG Sheetrock® Brand Midweight® Joint Compound**
- Provides superior working and sanding properties along with lower shrinkage for improved metal bead, trim, and fastener concealment
- Weighs up to 15% less than conventional-weight compounds
- Special formulation makes it ideal for embedding tape and for filling, leveling and finishing over gypsum panel joints
- Excellent for skim coating and hand-applying simple textures

**Product Data**
- Available in: 4.5 gal. pail, 3.5 gal. carton, 4.5 gal. carton

**USG Sheetrock® Brand Total™ Lite Joint Compound**
- Superior working qualities and good open time facilitates working back under fast drying conditions
- Weighs up to 15% less than conventional-weight compounds
- Special formulation makes it ideal for embedding paper tape and for filling, leveling and finishing over gypsum panel joints, fasteners, bead and trim

**Product Data**
- Regional Availability: Sigurd / Torrance
- Available in: 3.5 gal. carton

**LIGHTWEIGHT**

**USG Sheetrock® Brand Plus 3® Joint Compound**
- Weighs up to 25% less than conventional-weight compounds
- Provides increased crack resistance and is easier to sand
- High-performance formulation makes it ideal for filling, leveling and finishing coats
- Note: Do not use to embed joint tape, to skim coat or as a texture

**Product Data**
- Regional Availability: East Chicago / Fort Dodge / Sigurd
- Available in: 4.5 gal. pail, 3.5 gal. carton, 4.5 gal. carton

**USG Sheetrock® Brand Dust Control Joint Compound**
- Unique formula binds up fine residue during sanding to form heavier particles that tend to fall to the floor instead of clouding the air
- Requires only two coats over bead and fasteners
- Bonds like a taping product for a tough, tight bond under most job conditions
- Combines all-purpose, single-package convenience with optimum taping and topping performance

**Product Data**
- Regional Availability: East Chicago / Fort Dodge
- Available in: 1 qt. patch and repair tub, 3.5 qt. pail, 3.5 gal. pail, 3.5 gal. carton

**USG Sheetrock® Brand Taping Lite Joint Compound**
- Weighs up to 40% less than conventional-weight taping compounds
- For use in mechanical taping tools, as well as on most gypsum board when maximum bond and crack resistance are essential
- Ultralightweight formulation is designed for mechanical tools and is less fatigueing for overhead applications
- Superior slip and adhesion
- Ideal for embedding paper joint tape

**Product Data**
- Regional Availability: Auburn
- Available in: 3.5 gal. carton

**USG Sheetrock® Brand Topping Lite Joint Compound**
- Weighs up to 25% less than conventional-weight compounds
- Provides good open time with less shrinkage
- Ideal for taping and topping performance

**Product Data**
- Regional Availability: Sigurd / Torrance
- Available in: 3.5 gal. carton

**USG Sheetrock® Brand Elite Finish Joint Compound**
- USG’s latest premium, lightweight fill and finish compound
- Weighs up to 40% less than conventional-weight compounds
- Softer sanding and improved open time with a creamier flow and high slip
- Note: Do not use to embed joint tape

**Product Data**
- Regional Availability: East Chicago / Fort Dodge
- Available in: 4.5 gal. carton, 3.5 gal. carton

* Packaging size availability may vary by market.
USG Interior Finishing Products

**JOINT COMPOUNDS**

**LIGHTWEIGHT CONT.**

**USG Beadex® Brand Gold™ Lite Joint Compound**
- Weights up to 30% less than conventional-weight compounds
- Facilitates working back, even under fast-drying conditions, by providing more wet-edge life to prevent rolling and tearing of previously laid compound
- Factory-controlled shrinkage results in finer finished work, but without the extra labor

**PRODUCT DATA**
- **REGIONAL AVAILABILITY:** Auburn
- **AVAILABLE IN:** 3.5 gal. carton

**USG Beadex® Brand All Purpose Lite Joint Compound**
- Combines all-purpose, single-package convenience with optimum taping and topping performance
- Recommended for use as an embedding and finishing compound, bonds like a taping product, and provides a tough, tight bond under most job conditions

**PRODUCT DATA**
- **REGIONAL AVAILABILITY:** Auburn / Phoenix
- **AVAILABLE IN:** 3.5 qt. pail, 4.5 gal. pail, 3.5 gal. carton

**USG Beadex® Brand Topping Lite Joint Compound**
- Excellent finishing compound with superior crater resistance
- Recommended for second and third coats over USG Beadex® Brand Taping Lite and All Purpose Lite Joint Compounds
- **Note:** Do not use to embed joint tape, to skim coat or as a texture

**PRODUCT DATA**
- **REGIONAL AVAILABILITY:** Auburn
- **AVAILABLE IN:** 3.5 gal. carton

**USG Beadex® Brand Taping Lite Joint Compound**
- Lightweight high-performance compound for embedding tape
- Best ready-mixed compound for laminating
- Ideal for skim coating on most gypsum board where maximum bond is essential

**PRODUCT DATA**
- **REGIONAL AVAILABILITY:** Auburn
- **AVAILABLE IN:** 3.5 gal. carton

**USG Soquete® Joint Compound**
- Economical and well-balanced compound
- Weights up to 15% less than conventional-weight compounds, making handling and applying easier and faster
- Provides low shrinkage for metal bead, trim and fastener concealments
- Ideal for first coat over metal, finishing, skim coating and simple hand-applied texturing

**PRODUCT DATA**
- **REGIONAL AVAILABILITY:** Dallas / Galena Park / Phoenix / Torrance
- **AVAILABLE IN:** 3.5 gal. carton

**USG Sheetrock® Brand All Purpose Joint Compound**
- Weighs up to 20% less than conventional-weight compounds
- Lower shrinkage, better crack resistance
- Easier mixing, application and sanding

**PRODUCT DATA**
- **REGIONAL AVAILABILITY:** Jacksonville / Phoenix
- **AVAILABLE IN:** 20 lb. bag

**USG Sheetrock® Brand A/P Lite® Joint Compound**
- Weights up to 30% less than conventional-weight compounds
- Facilitates working back, even under fast-drying conditions, by providing more wet-edge life to prevent rolling and tearing of previously laid compound
- Factory-controlled shrinkage results in finer finished work, but without the extra labor

**PRODUCT DATA**
- **REGIONAL AVAILABILITY:** Jacksonville / Phoenix
- **AVAILABLE IN:** 20 lb. bag

**USG Drying-Type Joint Compounds**
USG drying-type joint compounds are high-quality compounds that provide easy mixing, smooth application and ample working time. These compounds are ideal for embedding tape, fill coats and finishing over drywall joints, corner bead, trim and fasteners.

**USG Sheetrock® Brand All Purpose Joint Compound**
- All-around performer for drywall finishing
- Good taping and topping in one product
- Also ideal for texturing

**PRODUCT DATA**
- **REGIONAL AVAILABILITY:** Dallas / Gypsum / Phoenix / Sigurd
- **AVAILABLE IN:** 25 lb. bag

**USG Sheetrock® Brand A/P Lite® Joint Compound**
- Weighs up to 40% less than conventional-weight compounds
- Superior formulation provides enhanced working properties and improved slip for easy application
- Provides excellent taping performance and tough finished surface, yet is easy to sand
- Great for use in mechanical tools

**PRODUCT DATA**
- **AVAILABLE IN:** 4.5 gal. pail, 3.5 gal. carton, 4.5 gal. carton

* Packaging size availability may vary by market.
USG setting-type joint compounds provide faster finishing of drywall interiors, even under slow drying conditions. Rapid chemical hardening and low shrinkage permit same-day finishing and usually next-day decoration. These products feature exceptional bond; virtually unaffected by humidity extremes. They are ideal for laminating double-layer systems, particularly fire-rated assemblies, and for adhering gypsum panels to above-grade concrete surfaces. May also be used for surface texturing and for filling, smoothing and finishing interior above-grade concrete. Note that setting-type joint compounds should not be used for skim coating due to dryout concerns.

---

### JOINT COMPOUNDS

**USG SHEETROCK® BRAND EASY SAND® JOINT COMPOUND**

- For one-day patching and joint finishing and next-day decoration
- Weighs up to 25% less than conventional setting-type compounds
- Easy to sand
- Provides low shrinkage and a superior bond
- Ideal for laminating drywall and patching plaster surfaces

**USG SHEETROCK® BRAND DURABOND® JOINT COMPOUND**

- Exceptional bond with low shrinkage
- Same-day finishing and next-day decorating possible
- Excellent crack-crack resistance in heavy fills
- Unique resistance to humidity

**USG SHEETROCK® BRAND COVER COAT® JOINT COMPOUND**

- For filing and smoothing monolithic concrete ceilings and columns located above grade
- Easily applied—no extra bonding agent needed
- Dries to a fine white decorative surface
- Also ideal for drywall tape embedding and first coat over bead

**CONCRETE FINISHING COMPOUNDS**

**AVAILABLE IN:**
- 5-, 20-, 45-, 90- and 210-minute working times;
- 3 lb. resealable bag (Only 5- and 90-minute working time)
- 18 lb. bag

**REGIONAL AVAILABILITY:**
- Auburn
- Baltimore / Port Reading / East Chicago / Jacksonville

**PRODUCT DATA**

**Setting-Type Joint Compounds**

- Weighs up to 25% less than conventional setting-type compounds
- Easy to sand
- Provides low shrinkage and a superior bond
- Ideal for laminating drywall and patching plaster surfaces

**USG BEADEX® BRAND SILVER SET™ JOINT COMPOUND**

- Weighs up to 28% less than conventional setting-type compounds
- Ideal for heavy fills and virtually unaffected by humidity
- Low shrinkage and superior bond, which make it excellent for laminating gypsum panels to sound-deadening boards and to above-grade concrete surfaces
- Can also be used for filling, smoothing and finishing interior concrete ceilings and above-grade concrete; taping and finishing gypsum panels, under tile and for finishing joints in exterior gypsum ceiling boards

**PRODUCT DATA**

**USG BEADEX® BRAND DRYWALL JOINT TAPE**

- Superior center creasing for trouble-free corner finishing
- High strength to resist tearing, stretching or wrinkling
- Processed for superior bond
- Wafer thin for easy joint treatment
- Meets ASTM C475, Type I

**REGIONAL AVAILABILITY:**
- 75’ roll, 250’ roll, 500’ roll; 2-1/16” wide

**PRODUCT DATA**

**PAPER JOINT TAPES**

From the originator of modern joint finishing, USG reinforcing tapes add strength and crack resistance for smooth concealment at flat joints and inside corners. USG joint tapes are high quality, easily applied, and available for specialized uses.

USG Sheetrock® Brand Joint Paper Tape is manufactured with a unique, strong, cross-fibered tape for use with USG joint compounds in reinforcing joints and corners in gypsum panels. Paper joint tape is ideal with both drying- and setting-type compounds, as it reinforces the joint compound in compression, bending and shear, and will prevent visible cracking.

All Sheetrock® Brand Joint Tape products are available in the East Region. All Beadex® Brand Joint Tape products are available in the West Region. Please refer back to page 5 for regional details.

**USG SHEETROCK® BRAND PAPER JOINT TAPE**

- Superior center creasing for trouble-free corner finishing
- High strength to resist tearing, stretching or wrinkling
- Processed for superior bond
- Wafer thin for easy joint treatment
- Meets ASTM C475, Type I

**AVAILABLE IN:**
- 75’ roll, 250’ roll, 500’ roll; 2-1/16” wide

**PRODUCT DATA**

**USG SHEETROCK® BRAND HEAVY JOINT TAPE**

- Superior center creasing for trouble-free corner finishing
- High strength to resist tearing, stretching or wrinkling
- Processed for superior bond
- Wafer thin for easy joint treatment
- Meets ASTM C475, Type II

**AVAILABLE IN:**
- 250’ roll, 500’ roll; 2-1/16” wide

**PRODUCT DATA**

---

* Packaging size availability may vary by market.
USG Sheetrock® Brand Fiberglass Joint Tape is made with a unique cross-fiber construction to provide greater drywall joint strength than conventional fiberglass leno-weave mesh tapes. This self-adhesive tape goes on quickly, eliminating the bedding coat. Finished joints are accomplished in two coats by using setting-type joint compound. It is not recommended to use drying-type compounds with fiberglass tape.

USG SHEETROCK® BRAND FIBERGLASS JOINT TAPE

- Self-adhesive tape—no bedding coat needed
- Smooth joints in only two coats
- Use with setting-type joint compounds for one-day joint finishing
- Meets ASTM C475, Type II
- Meets ASTM D3273 for mold resistance

BEAD AND TRIM

PAPER-FACE METAL CORNER

For the most cost-effective, problem-free, beautiful corners, choose USG Sheetrock® and Beadex® Brand Paper-Faced Metal Corner Bead and Trim. Fast, easy installation means reduced labor costs, while superior product performance eliminates costly job callbacks, saving money and ensuring customer satisfaction. With the tape-on versions, nailing is not required, so installation and corner alignment are easier, and there are no nails to pop when wood framing shrinks. Nail-on versions of the bead and trim are designed for applications where nailing or other mechanical fastening is desired. They use the same paper-faced metal technology to provide excellent bond adhesion qualities for joint compounds, textures and paints. The unique green “nose coating” on the paper tape covering resists scuffing and fuzzing from knives and sanding. The paper tape covering ensures excellent adhesion of joint compounds, textures and paints for a strong, smooth finish.

USG Sheetrock® and Beadex® Brand Paper-Faced Metal Corner Bead and Trim provide superior resistance to edge cracking and chipping for a look that stays beautiful despite the stresses of normal building movement and everyday wear and tear. In fact, USG warrants that its beads and trims will not edge crack for the lifetime of the structure using recommended application techniques.

All Sheetrock® Brand Bead and Trim products are available in the East Region. All Beadex® Brand Bead and Trim products are available in the West Region. Please refer back to page 5 for regional details.

**USG SHEETROCK® BRAND PAPER-FACED METAL TRIM**
*"L" SHAPED, TAPE-ON (B4 SERIES)*

Tape-on "L"-shaped trim completely surrounds the rough edge of the wallboard, providing a strong and clean corner. Tape-on application eliminates frustration with nailing and nail shrink back. Can be used for finishing off both closet doors, as well as under all door and window encasements, and to finish rough drywall ends. Standard lengths: 7’, 8’, 10’.

Also available in USG BEADEX® BRAND.

USG Offers a wide variety of textures and finishes to hide minor surface blemishes and provide distinctive interior styling. These products are fast and easy to apply and quick drying, saving labor time to preserve job profits.

**Powder Textures**

USG powder textures provide an economical interior wall and ceiling solution for a wide range of patterns. Conveniently packaged in bags, these textures allow you to transport more at once and require less storage space.

- **USG Sheetrock® Brand QT Poly Ceiling Spray Texture: Fine, Medium and Coarse**
  - For striking acoustical appearance on interior ceilings
  - Ideal for new construction and renewing old ceilings
  - Hides minor surface defects with an attractive texture
  - Choice of three high-style finishes
  - Easy-pumping, low-cost spray application
  - AVAILABLE IN: 32 lb. bag, 40 lb. bag

- **USG Sheetrock® Brand Spray Texture: Unaggregated**
  - For a variety of light, appealing textures in interiors, including spatter and spatter/knockdown
  - Superior open time for hand-tooled knockdown finishes
  - Excellent surface relief (standout), low shrinkage
  - Not washable unpainted—overpaint when dry
  - AVAILABLE IN: 50 lb. bag

- **USG Sheetrock® Brand Tuf-Tex® Wall and Ceiling Texture**
  - For diverse texture patterns from bold spatter/knockdown to light orange peel
  - Conceals minor surface defects
  - Spray, brush or roller application
  - Dries to a hard white finish—overpaint when dry
  - AVAILABLE IN: 50 lb. bag

- **USG Beadex® Brand Quick Spray Decorative Texture**
  - Designed for spray application over gypsum panels and most other interior wall and ceiling surfaces where moderate to bold texture patterns are desired
  - Dries to a firm, soft-tone white surface
  - Provides lower shrinkage than texturing with joint compound
  - REGIONAL AVAILABILITY: Auburn
  - AVAILABLE IN: Unaggregated; 50 lb. bag

**Surfacing Solutions**

USG offers a wide variety of textures and finishes to hide minor surface blemishes and provide distinctive interior styling. These products are fast and easy to apply and quick drying, saving labor time to preserve job profits.
**READY-MIXED TEXTURES**

Ideal for repair and remodel projects, USG ready-mixed textures eliminate the screening of lumps that occur in the mixing process, which means less wear and tear on equipment.

**PRODUCT DATA**

**USG SHEETROCK® BRAND SPRAY TEXTURE**
- Spray texture with ready-mixed convenience
- For a variety of light, appealing textures in interiors, such as spatter, spatter/knockdown and orange peel
- Excellent surface relief (standout); low shrinkage
- Not washable unpainted—overpaint when dry

**REGIONAL AVAILABILITY:**
Fort Dodge / Dallas / Galena
Park / Phoenix / Sigurd / Torrance / Auburn

**AVAILABLE IN:**
3.5 gal. carton, 4.5 gal. carton

**USG SHEETROCK® BRAND TEXOLITE® SANDED PASTE STIPPLE**
- Provides a fine, light sand finish
- Latex formula dries to a durable, natural white finish
- Conceals minor surface defects
- Spray, brush or roller applied

**REGIONAL AVAILABILITY:**
Port Reading / East Chicago / Gypsum

**AVAILABLE IN:**
1 gal. pail, 5 gal. pail

**USG SHEETROCK® BRAND SAND FINISH PAINT ADDITIVE**
- For creating textured walls and ceilings
- Also ideal for creating a non-skid surface on decks, steps, etc.
- Works in all paints and varnishes—oil-based or latex-based interior or exterior
- Amount used can be varied to provide a customized texture
- Remains suspended during application to ensure a uniform finish

**REGIONAL AVAILABILITY:**
East Chicago / Fort Dodge / Gypsum

**AVAILABLE IN:**
8 oz. tub, 30 oz. box

**USG BEADEX® BRAND FASTEX™ WALL AND CEILING SPRAY TEXTURE**
- Vinyl formulation for texturing interior, above-grade surfaces
- Designed for spray application over gypsum panel, concrete, and most other interior wall and ceiling surfaces where moderate to bold texture patterns are desired
- Dries to a white surface, but should be overpainted when dry

**REGIONAL AVAILABILITY:**
Auburn

**AVAILABLE IN:**
3.5 gal. carton

**VENeer PLaster FINishes and BasECOATS**

USG veneer plaster systems offer the opportunity to trim days from interior finishing schedules and provide strong, highly abrasion-resistant surfaces. These products are designed for one- or two-coat work over gypsum bases or directly to concrete block or properly prepared monolithic concrete. Both one- or two-coat applications offer a truly monolithic surface that is superior for critical light conditions.

Plaster products are GREENGUARD certified and qualify as low VOC emitting materials (CDPH Standard Method V1.1, also known as CA Section 01350).

**PRODUCT DATA**

**USG DIAMOND® VENEER FINISH AND USG DIAMOND® VENEER FINISH - SANDED**
- For economical, abrasion-resistant walls and ceilings
- Excellent for texturing
- Finish coat for one- and two-coat veneer plaster systems
- Fast drying—permits next-day decorating
- USG Diamond® Veneer Finish - Sanded is preaggregated for convenience and higher productivity

**AVAILABLE IN:**
50 lb. bag

**USG IMPERIAL® VENEER FINISH**
- For strong, abrasion-resistant interior finishes
- Durable and stable, especially in high-traffic areas
- Usually ready for next-day decoration with a latex-based breather-type paint
- When used with USG Imperial® Gypsum Base, provides fire resistance

**AVAILABLE IN:**
50 lb. bag

**USG APEX™ VENEER FINISH**
- Versatile, fuller bodied veneer finish plaster that may be textured, floated or finished smooth
- One- and two-coat veneer plaster systems
- Easy mixing
- Extended set
- Fast applying—permits next-day decorating

**AVAILABLE IN:**
50 lb. bag

**USG NORFOLK™ VENEER FINISH**
- Versatile veneer plaster that may be finished smooth, float or textured
- Provides white finish that may be left undecorated if found acceptable (painting recommended)
- Fast finishing, usually ready for next-day decoration with a latex-base breather-type paint (PVA paints not recommended)

**AVAILABLE IN:**
50 lb. bag
## VENEER BASECOATS

### USG DIAMOND® VENEER BASECOAT
- For economical two-coat residential and light-commercial applications
- Superior workability for faster, easier application
- Excellent base for a variety of plaster finishes
- High coverage—as much as 4,000 to 5,000 sq. ft. per ton

### USG IMPERIAL® VENEER BASECOAT
- Durable and stable, especially in high-traffic areas
- Permanent bond
- When used with USG Imperial® Gypsum Base, provides fire resistance
- Can be applied direct to concrete block or over a bonding agent to monolithic concrete

### PRODUCT DATA
- AVAILABLE IN: 50 lb. bag

### CONVENTIONAL PLASTER FINISHES AND BASECOATS

USG conventional plaster systems provide the highest-quality finish and the capability to create complex high-end surfaces such as vaults, domes and columns. These products feature excellent acoustical performance, proven fire resistance, increased abuse resistance and design flexibility, and are the best system to attain a uniform, monolithic, blemish-free, smooth surface with excellent wear resistance.

### CONVENTIONAL BASECOATS

#### USG RED TOP® BASECOAT PLASTER
- Quick Set, Slow Set
- Perlite Aggregate
- For filling and smoothing monolithic concrete ceilings and columns located above grade
- Easily applied—no extra bonding agent needed
- Dries to a fine white decorative surface
- Also ideal for drywall tape embedding and first coat over bead

#### USG STRUCTO-LITE® BASECOAT PLASTER
- For extremely high-strength conventional plaster applications
- Develops higher strengths than conventional plasters (up to 2,800 psi compressive strength)
- Ideal for high-abuse areas, such as handball courts, security walls, hospital corridors and schools
- Recommended over metal lath with scratch and brown coats mixed 2 cu. ft. sand to 100 lbs. plaster

#### USG STRUCTO-BASE® GYPSUM PLASTER
- For extremely high-strength conventional plaster applications
- Develops higher strengths than conventional plasters (up to 2,800 psi compressive strength)
- Ideal for high-abuse areas, such as handball courts, security walls, hospital corridors and schools
- Recommended over metal lath with scratch and brown coats mixed 2 cu. ft. sand to 100 lbs. plaster

### CONVENTIONAL FINISHES

#### USG RED TOP® GAUGING PLASTER: QUICK SET, SLOW SET AND PERLITE AGGREGATE
- Mixes smoothly and easily
- Provides smooth-trowel or sand-float lime-putty finishes for normal interior walls and ceilings
- Produces hard, crack and abrasion-resistant surfaces

#### USG STRUCTO-GUARD® GAUGING PLASTER: QUICK SET AND SLOW SET
- For filling and smoothing monolithic concrete ceilings and columns located above grade
- Easily applied—no extra bonding agent needed
- Dries to a fine white decorative surface
- Also ideal for drywall tape embedding and first coat over bead

### PRODUCT DATA
- AVAILABLE IN: 50 lb. bag

### USG RED TOP® FINISH PLASTER
- For finishing conventional and veneer plaster interior surfaces
- Factory-prepared for trouble-free mixing
- Excellent smoothness and troweling characteristics
- Consistent lime/gauging ratio

### USG RED TOP® KEENES CEMENT
- For blending with lime putty to create a durable, high-crack-resistant finish
- Retemperable; can be floated for an extended time period
- Permits mixing large batches and job finishing when sand-float finished

### PRODUCT DATA
- AVAILABLE IN: 50 lb. bag
PLASTER ACCESSORIES

When conditions exist that affect the adhesion or the normal setting time of conventional plasters, veneer plasters, lime finish plasters and setting-type joint compounds, USG offers special additives in a variety of high-performance formulations.

**USG GYPSUM PLASTER RETARDER: STANDARD STRENGTH**
- For slowing the setting time of conventional plasters, veneer plasters, lime finish plasters and setting-type joint compounds
- Easily disperse into mixing water for quick addition to plaster mix
- Available in a Standard Strength formulation

**USG GYPSUM PLASTER ACCELERATOR: STANDARD STRENGTH**
- For reducing the setting time of plasters and setting-type joint compounds
- Available in a Standard Strength formulation to meet accelerated setting requirements
- Easy to use

**USG PLASTER BONDER: PINK AND CLEAR**
- Provides enhanced and fortified adhesion to a wide variety of sound substrates
- Compatible with a large assortment of gypsum- and cement-based plasters
- Easily applied by brush, roller or spray to a uniform continuous film
- Clear or tinted to allow easy visual inspection when required
- Film dries quickly for same-day use, or may be left unplastered for up to 10 days

**CONVENTIONAL BASECOATS CONT.**

**USG RED TOP® GYPSUM PLASTER**
- Multipurpose conventional basecoat plaster applications
- The most popular conventional gypsum basecoat plaster in the building industry
- For hand or machine application, or both; for use with sand or lightweight aggregates
- For plaster wall and ceiling assemblies requiring high fire-resistant and sound-isolating performance

**USG RED TOP® GYPSUM PLASTER: WOOD FIBER**
- For plaster wall and ceiling assemblies requiring high fire-resistant and sound-isolating performance
- Ideal as a scratch coat for metal lath applications
- Contains fine particles of selected wood fiber, needs addition of water only
- Develops higher strength than standard gypsum plasters

**PRODUCT DATA**

**AVAILABLE IN:**
- 50 lb. bag

**PRODUCT DATA**

**AVAILABLE IN:**
- 2.5 lb. resealable pouch

**PRODUCT DATA**

**AVAILABLE IN:**
- 3 lb. resealable pouch

**PRODUCT DATA**

**AVAILABLE IN:**
- 1 gal. resealable container, 5 gal. pail
Proper preparation is essential for producing the best possible painted finish. Also important for a superior paint job is the equalization of both the porosity and surface texture to minimize decorating problems. USG preparation solutions ensure your interiors are perfectly smooth and free of pockmarks, fine ridges and scuffed paper from sanding, providing a solid foundation for a superior finish.

**PREPARATION SOLUTIONS**

**USG SHEETROCK® BRAND FIRST COAT™ PRIMER**
- Ideal primecoat for interior gypsum board and concrete surfaces
- Equalizes surface absorption and texture variations of substrate to minimize decorating problems
- Apply with brush, roller or spray equipment
- Dries white in less than 30 minutes—top coat in an hour

**USG SHEETROCK® BRAND ACOUSTICAL SEALANT**
- Achieves a Level 5 finish faster
- High build spray for a smoother, more beautiful finish
- Durable coating hides minor surface defects
- Excellent for critical light areas
- Ideal finish for ceilings
- Dries white, can be tinted to match final top coat

**SEALANTS**

Applying sealant has proven to be the most cost-effective way to seal assemblies and prevent sound transmission. USG offers a variety of high-performing, resilient acoustical and Firecode® sealants that are approved for use in all Underwriters Laboratories Inc. (UL) fire-rated assemblies without affecting fire ratings.

Sealant products are GREENGUARD GOLD certified and qualify as low VOC emitting materials (CDPH Standard Method V1.1, also known as CA Section 01350).

**USG SHEETROCK® BRAND ACOUSTICAL SEALANT**
- Excellent sound-blocking material (supports high STC ratings)
- Superior performance as a fire caulk in UL Classified joint and through-penetration firestop systems
- Ideal for use in smoke and/or sound assemblies
- Meets ASTM C634 specifications for latex sealants
- Grade -18°C (0°F) low temperature flexibility, strong bond
- Low VOC

Whether you’re skim coating an entire surface or spray applying a primer, USG primers and primer-surfacers minimize decorating problems and help achieve a superior paint job over interior gypsum board, wood and concrete surfaces.
SEALANTS CONT.

USG SHEETROCK® BRAND FIRECODE® SMOKE-SOUND SEALANT

- Superior performance as a fire caulk in UL Classified joint systems and through-penetration systems
- Ideal for use in smoke and/or sound assemblies
- Sound-blocking acoustical sealant (supports high STC ratings)
- Highly elastic for permanent flexibility and seal
- Meets ASTM C834

PRODUCT DATA

AVAILABLE IN:
29 oz. cartridge

USG SHEETROCK® BRAND FIRECODE® COMPOUND

- For use in providing firestop systems for floor and wall penetrations and head-of-wall construction joints
- Nontoxic; flame spread 0, smoke developed 0 when tested per ASTM E84
- Mixes quickly with water
- Complies with ASTM E884, CAN 4-S115 and UL 2079; recognized by ICBO (ER-5050)

PRODUCT DATA

AVAILABLE IN:
15 lb. bag

INTERIOR PATCH & REPAIR SOLUTIONS

Finished interior walls are subject to abuse and damage from time to time. USG has developed a line of repair products to deal with a variety of holes, cracks, dents and abrasions.

### USG Commodity Codes

- **USG Sheetrock® Brand Plaster of Paris**
  - For patching interior drywall and plaster walls and ceilings
  - Sets hard in 30–50 minutes
  - Can be used for casting, modeling and sculpting forms

- **USG Sheetrock® Brand Drywall Repair Clips**
  - For fast, easy drywall repair of large holes (over 2") and areas damaged by water
  - When used with fire-rated drywall, meets building code requirements for repairing one-hour fire-rated drywall partitions
  - Suitable for both 1/2" and 5/8" drywall

- **USG Sheetrock® Brand Dust Control Patch and Repair Compound**
  - Unique formula binds up fine residue during sanding to form heavier particles that tend to fall to the floor instead of clouding the air
  - Requires only two coats over bead and fasteners
  - Bonds like a taping product for a tough, tight bond under most job conditions
  - Combines all-purpose, single-package convenience with optimum taping and topping performance
  - Easy to work from mud pan and/or

- **USG Sheetrock® Brand Easy Sand™ Joint Compound**
  - For one-day patching and joint finishing and next-day decoration
  - Weighs up to 25% less than conventional setting-type compounds
  - Easy to sand
  - Provides low shrinkage and a superior bond
  - Ideal for laminating drywall and plaster surfaces
