PARTNERING WITH USG GOES BEYOND THE PRODUCTS.

At USG, our commitment to innovative building materials is only matched by our commitment to you. From a dedicated sales and support staff to informative training programs, partnering with USG is more than just getting our products in your hands. It’s having our people, resources and unmatched service on hand so you can keep moving, keep growing and keep building your world.

PEOPLE AND SUPPORT:
• Experienced and dedicated sales, product marketing and customer service teams
• Local sales representation to provide support and training
• Nationwide architectural sales team
• Active involvement in industry organizations including: ASTM, ANSI, TCNA, NTCA, CTDA, CTEF, MMSA, WFCA, NAFCD, FCICA and IAPMO
• World-class research facility and staff
• National manufacturing and distribution network
• Active online presence

STRENGTH BENEATH THE SURFACE.™

For more than 100 years, USG has been a leader in producing innovative products and systems to help build the spaces in which we live, work and play.

Our dedication to the company’s core business beliefs—integrity, safety, quality, efficiency, diversity, innovation and service—has helped us lead the industry in delivering the highest quality products, backed by service and support you can depend upon.

This brochure features our USG Durock® and Fiberock® Brand products. Our backerboards, underlayments and accessories set new standards in performance and innovation.

Delivering to you—and builders around the world—not only a choice in materials, but also an underlying confidence for your perfect finish.
BACKERBOARDS AND UNDERLAYMENTS
MADE TO STAND STRONG SO YOU CAN REST EASY.

USG offers the most extensive portfolio of backerboard technologies in the industry. No matter which one you choose, it will provide you a durable, moisture- and mold-resistant substrate for your tile for years to come.

• USG DUROCK® BRAND CEMENT BOARD
• USG FIBEROCK® BRAND TILE BACKERBOARD AND UNDERLAYMENT
• USG DUROCK™ BRAND GLASS-MAT TILE BACKERBOARD

USG DUROCK® BRAND CEMENT BOARD WITH EDGEGUARD™

For more than 30 years, USG Durock® Cement Boards have set the standard for proven performance in the backerboard category. They’re water durable, mold resistant and provide a tile bond superior to both fiber-cement boards and bare plywood, making USG Durock® Cement Board the perfect choice for a wide variety of interior and exterior applications.

BENEFITS:
• Enhanced proprietary edge performance prevents spinouts and crumbling
• Easy to cut and fasten
• 5x the industry standard for tile bond
• Water durable, mold and mildew resistant
• Noncombustible
• Meets residential and light-commercial performance rating based on Robinson Floor Test (ASTM C627), conducted by the Tile Council of North America (TCNA)
• Lifetime (30-Year) limited warranty
USG FIBEROCK® BRAND TILE BACKERBOARD AND UNDERLAYMENT

USG Fiberock® Brand Tile Backerboard and Underlayment are the innovative alternatives to traditional cement backers and are both easy to install and wet-area approved. Their unique, fiber-reinforced, uniform composition gives the panels strength and water resistance through to the core with no risk of delamination.

BENEFITS:

• Made from 97% recycled material
• Uniform composition provides both strength and water resistance
• Ideal under tile, stone, vinyl, hardwood flooring, laminate flooring and carpeting
• Superior tile bond—3x industry standard
• Free of resins, adhesives and solvents that might stain a vinyl floor
• Provides a smooth, flat, paintable surface for wall applications
• Easy to cut, fasten and install
• Monolithic core, will not delaminate
• Meets residential and light-commercial performance rating based on Robinson Floor Test (ASTM C627), conducted by the Tile Council of North America (TCNA)
• 20-year, limited warranty
USG Durock™ Brand Glass-Mat Tile Backerboard is a moisture- and mold-resistant gypsum panel with a fiberglass mat facer and back. The face of the panel is treated with a patented cementitious coating for moisture resistance and enhanced tile bond, making it ideal as a tile substrate for wet areas.

**BENEFITS:**

- Lightweight and easy to score, snap and fasten
- Moisture- and mold-resistant substrate
- Scores the highest achievable rating (10 out of 10) for mold resistance according to ASTM D3273
- Proprietary coating provides exceptional tile bond performance
- Interior tile for floors, walls and ceilings
- 20-year, limited warranty
WATERPROOFING AND CRACK ISOLATION MEMBRANES
WHAT STANDS ABOVE IS ONLY AS STRONG AS WHAT LIES BELOW.

Because protecting the integrity of your tile installation is important, USG offers solutions that provide water and mold resistance, while delivering high-performance crack isolation in floor installations.

USG DUROCK™ BRAND UNCOUPLING MAT

The USG Durock™ Brand Uncoupling Mat is a lightweight, high performance crack isolation, waterproofing and vapor management underlayment membrane for use with ceramic tile and natural stone installations in both residential and commercial applications. The membrane features a low-density polyethylene (LDPE) core to reduce roll-back memory during installation and a reinforced fleece backing keys into mortar providing a secure mechanical bond to the substrate. Its unique dimple design and non-woven fabric allow for minimal passes to fill cavities with mortar. When exposed to stresses from in-plane lateral movement of the substrate, the USG Durock™ Uncoupling Mat absorbs and prevents the transfer of those stresses (up to 1/8”), preserving the integrity of the tile installation.

BENEFITS:

• Provides uncoupling, waterproofing and vapor management of the substrate
• Lighter, thinner alternative to 1/4” tile underlayment panels
• Low-density core helps keep the membrane flat during installation
• Rot-proof and resistant to solvents and alkalis
• Ceramic tile installation can take place immediately after the membrane is installed
• Approved for use with modified and unmodified mortars
• 10-year, limited warranty
USG DUROCK™ BRAND LIQUID WATERPROOFING AND CRACK ISOLATION MEMBRANE

USG Durock™ Brand Waterproofing and Crack Isolation Membrane is an acrylic polymer-based product for both commercial and residential tile and natural stone applications. It is ideal for waterproofing floors and walls in showers and other wet areas, including steam showers, without an additional vapor retarder.

BENEFITS:
• Anti-fracture protection up to 1/8” over shrinkage and other non-structural cracks
• Low perm rating (0.38 perms at 20 mils dry) per ASTM E96 Procedure E
• Fast drying time allows for quick turnaround
• Can be rolled, brushed, troweled and sprayed
• One coat on vertical surfaces for smooth substrates such as USG Fiberock® Brand Tile Backerboard
• Two coats on rough substrates such as USG Durock® Brand Cement Board, and for all horizontal applications

**KEY FEATURES**

- Lightweight tile backerboard
- Water durable, mold resistant for high-moisture areas
- Will not rot, warp, delaminate or disintegrate when exposed to water

**APPLICATIONS**

- Superior tile bond
- Easy to cut and fasten for quick installation
- Noncombustible
- Made in the U.S.A.

- Use in both wet and dry areas throughout the home
- Superior tile bond
- Free of resins, adhesives and solvents that might stain a vinyl floor
- Easy to cut, fasten and install
- Made in the U.S.A.

- Made from 97% recycled material
- Uniform composition provides strength plus water and mold resistance
- No facing, will not delaminate
- Use in both wet and dry areas throughout the home

- Rot-proof and resistant to solvents and alkalis
- Approved for use with modified and unmodified mortars

- Provides uncoupling, waterproofing and vapor management of the substrate
- Lighter, thinner alternative to 1/4" tile underlayment panels
- Low density core helps keep the membrane flat during installation

- Suitable for waterproofing floors and walls
- Anti-fracture protection up to 1/8" over shrinkage and other non-structural cracks
- Low perm rating (0.38 perms at 20 dry mils) per ASTM E96, Procedure E

ACCESSORIES
USG DUROCK™ BRAND SCREWS

USG Durock™ Brand Screws are high-quality, corrosion-resistant fasteners specially designed for attaching various types of backerboards and underlayment to wood or steel framing members. Can be used for interior and most exterior applications.

**BENEFITS:**
- Designed to resist 1500+ hours of salt spray (per ASTM B117)
- The RECEX® Robertson/Phillips combo drive reduces driving effort, promotes faster driving and extends bit life
- Conveniently packaged for small- and medium-size installations in a clear and durable plastic jar that includes a square bit. The jars feature twist-on lids with handles and can easily be repurposed or recycled

USG DUROCK™ BRAND TAPE
Polymer-coated glass-fiber tapes that offer strong joint reinforcement of USG Durock® Brand Cement Board interior and exterior applications, and USG Fiberock® Brand Panels in interior applications. Available in 2”x50’, 2”x250’ and 4”x150’ lengths.

BENEFITS:
• Alkali-resistant glass-fiber construction
• Reinforces joints and corners of panels in tile applications
• Sizes for interior (2” wide) and exterior (4” wide) joint reinforcement

USG FIBEROCK™ BRAND FLOOR PROTECTOR PAPER
When the flooring installation is complete but trade traffic keeps coming, roll out USG Fiberock™ Brand Floor Protector Paper. This durable, heavy-duty 100% recycled paper covers and protects finished floors from dirt, spills and scratches. USG Fiberock Floor Protector Paper is nonstaining, even when wet. It has no memory so it stays flat, and it can be used as a scribing paper in addition to many other uses.

BENEFITS:
• Made with 100% recycled paper
• Helps protect floors from surface damage
• Will not stain floor covering or grout joints
• Use in place of rosin paper
