1. Identification

Product identifier: FIBEROCK® Abuse-Resistant Interior Panels

Other means of identification:
- SDS number: 56000000002
- Synonyms: Fiber-Reinforced Gypsum Panels, Gypsum Fiber Panels (GFP), Gypsum Panels, Drywall, Plasterboard, Wallboard

Recommended use: Interior use.

Recommended restrictions: Use in accordance with manufacturer's recommendations.

Manufacturer / Importer / Supplier / Distributor information:
- Company name: United States Gypsum Company
- Address: 550 West Adams Street, Chicago, Illinois 60661-3637
- Telephone: 1-800-874-4968
- Website: www.usg.com
- Emergency phone number: 1-800-507-8899

2. Hazard(s) identification

Physical hazards: Not classified.

Health hazards: Not classified.

OSHA defined hazards: Not classified.

Label elements:
- Hazard symbol: None.
- Signal word: None.
- Hazard statement: None.

Precautionary statement:
- Prevention: Observe good industrial hygiene practices.
- Response: Get medical attention/advice if you feel unwell.
- Storage: Store as indicated in Section 7.
- Disposal: Dispose of in accordance with local, state, and federal regulations.

Hazard(s) not otherwise classified (HNOC): None known.

3. Composition/information on ingredients

Mixtures:

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>CAS number</th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calcium sulfate dihydrate</td>
<td>13397-24-5</td>
<td>&gt; 90</td>
</tr>
<tr>
<td>(alternative CAS 10101-41-4)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Cellulose</td>
<td>9004-34-6</td>
<td>&lt; 10</td>
</tr>
</tbody>
</table>

Composition comments: All concentrations are in percent by weight unless ingredient is a gas.

The gypsum used to manufacture these panels contains respirable crystalline silica varying by source and over time, as determined by testing the gypsum bulk samples. Good work practices which minimize the extent of dust generation should be followed, and actual employee exposure on a given jobsite must be determined by workplace industrial hygiene testing.

4. First-aid measures

Inhalation: Dust irritates the respiratory system, and may cause coughing and difficulties in breathing. Move injured person into fresh air and keep person calm under observation. Get medical attention if symptoms persist.

Skin contact: Contact with dust: Rinse area with plenty of water. Get medical attention if irritation develops or persists.

Eye contact: Dust in the eyes: Do not rub eyes. Flush thoroughly with water. If irritation occurs, get medical assistance.
**Ingestion**
Rinse mouth. Get medical attention if symptoms occur.

**Most important symptoms/effects, acute and delayed**
Under normal conditions of intended use, this material does not pose a risk to health. Dust may irritate throat and respiratory system and cause coughing.

**Indication of immediate medical attention and special treatment needed**
Provide general supportive measures and treat symptomatically.

**General information**
Ensure that medical personnel are aware of the material(s) involved.

### 5. Fire-fighting measures

**Suitable extinguishing media**
Use fire-extinguishing media appropriate for surrounding materials.

**Unsuitable extinguishing media**
Not applicable.

**Specific hazards arising from the chemical**
Not a fire hazard.

**Special protective equipment and precautions for firefighters**
Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Fire-fighting equipment/instructions**
Use standard firefighting procedures and consider the hazards of other involved materials.

### 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**
See Section 8 of the SDS for Personal Protective Equipment.

**Methods and materials for containment and cleaning up**
No specific clean-up procedure noted. For waste disposal, see Section 13 of the SDS.

**Environmental precautions**
Avoid discharge to drains, sewers, and other water systems.

### 7. Handling and storage

**Precautions for safe handling**
Use work methods like "score and snap" to minimize dust production. Avoid inhalation of dust and contact with skin and eyes. Wear appropriate personal protective equipment. Wash hands after handling. Observe good industrial hygiene practices. When moving board with a forklift or similar equipment, it is essential that the equipment be rated capable of handling the load. The forks should always be long enough to extend completely through the width of the load. Fork spacing between supports should be one half the length of the panels or base being handled so that a maximum of 3' extends beyond the supports on either end.

**Conditions for safe storage, including any incompatibilities**
Store in a cool, dry, well-ventilated place. Store away from incompatible materials. Protect product from physical damage. Protect from weather and prevent exposure to sustained moisture. FIBEROCK® panels should be stored flat.

### 8. Exposure controls/personal protection

#### Occupational exposure limits

**US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)**

</table>

**Biological limit values**

No biological exposure limits noted for the ingredient(s).

**Appropriate engineering controls**

Provide sufficient ventilation for operations causing dust formation. Observe occupational exposure limits and minimize the risk of exposure.

**Individual protection measures, such as personal protective equipment**

- **Eye/face protection**
  - Wear approved safety goggles.

- **Skin protection**
  - **Hand protection**
    - It is a good industrial hygiene practice to minimize skin contact. For prolonged or repeated skin contact use suitable protective gloves.
  - **Other**
    - Normal work clothing (long sleeved shirts and long pants) is recommended.

- **Respiratory protection**
  - If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Use a NIOSH/MSHA approved air purifying respirator as needed to control exposure. Consult with respirator manufacturer to determine respirator selection, use, and limitations. Use positive pressure, air-supplied respirator for uncontrolled releases or when air purifying respirator limitations may be exceeded. Follow respirator protection program requirements (OSHA 1910.134 and ANSI Z88.2) for all respirator use. Observe any medical surveillance requirements.

- **Thermal hazards**
  - None.

**General hygiene considerations**

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment separately from regular wash. Observe any medical surveillance requirements.

9. **Physical and chemical properties**

**Appearance**

- **Physical state**
  - Solid.
- **Form**
  - Panel.
- **Color**
  - Off-white to tan.
- **Odor**
  - Low to no odor.
- **Odor threshold**
  - Not applicable.
- **pH**
  - 6 - 8
- **Melting point/freezing point**
  - Not applicable.
- **Initial boiling point and boiling range**
  - Not applicable.
- **Flash point**
  - Not applicable.
- **Evaporation rate**
  - Not applicable.
- **Flammability (solid, gas)**
  - Not applicable.
- **Upper/lower flammability or explosive limits**
  - **Flammability limit - lower (%)**
    - Not applicable.
  - **Flammability limit - upper (%)**
    - Not applicable.
  - **Explosive limit - lower (%)**
    - Not applicable.
  - **Explosive limit - upper (%)**
    - Not applicable.
- **Vapor pressure**
  - Not applicable.
- **Vapor density**
  - Not applicable.
- **Relative density**
  - 0.9 - 1 (Gypsum) (H2O=1)
- **Solubility(ies)**
  - **Solubility (water)**
    - Insoluble
- **Partition coefficient (n-octanol/water)**
  - Not applicable.
Auto-ignition temperature  Not applicable.
Decomposition temperature  2642 °F (1450 °C)
Viscosity  Not applicable.
Other information
  Bulk density  53 - 65 lb/ft³
  Particle size  Varies.
  VOC (Weight %)  0 %

10. Stability and reactivity
Reactivity  Not available.
Chemical stability  Material is stable under normal conditions.
Possibility of hazardous reactions  Hazardous polymerization does not occur.
Conditions to avoid  Contact with incompatible materials.
Incompatible materials  Strong oxidizing agents. Strong acids.
Hazardous decomposition products  Calcium oxides, carbon dioxide, and carbon monoxide.

11. Toxicological information
Information on likely routes of exposure
  Ingestion  Not likely, due to the form of the product.
  Inhalation  Inhalation of dusts may cause respiratory irritation.
  Skin contact  Under normal conditions of intended use, this material does not pose a skin hazard.
  Eye contact  Mechanical processing may generate dust. Direct contact with eyes may cause temporary irritation (1).
Symptoms related to the physical, chemical and toxicological characteristics  Under normal conditions of intended use, this material does not pose a risk to health.

Information on toxicological effects
  Acute toxicity  Not expected to be a hazard under normal conditions of intended use.
  Skin corrosion/irritation  Gypsum was not found to be a skin irritant.
  Serious eye damage/eye irritation  Gypsum does not cause serious eye damage or irritation.
  Respiratory or skin sensitization
    Respiratory sensitization  No data available, but based on results from the skin sensitization study, calcium sulfate is not expected to be a respiratory sensitizer.
    Skin sensitization  Not a skin sensitizer (2).
    Germ cell mutagenicity  No evidence of mutagenic potential exists (3,4,5).
    Carcinogenicity  No evidence of carcinogenic potential exists (6).
    Reproductive toxicity  No evidence of reproductive toxicity exists (2).
    Specific target organ toxicity - single exposure  No data available, but none expected.
    Specific target organ toxicity - repeated exposure  No data available, but none expected.
  Aspiration hazard  Due to the physical form of the product it is not an aspiration hazard.
  Chronic effects  No specific acute or chronic health impact noted.

12. Ecological information
Ecotoxicity  The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

</tr>
</tbody>
</table>
Mobility in soil
Calcium sulfate has a low potential for adsorption to soil. If water is applied, gypsum dissolves and the calcium and sulfate ions are mobile and penetrate the subsoil (6).

Other adverse effects
None expected.

13. Disposal considerations

Disposal instructions
Dispose in accordance with applicable federal, state, and local regulations. Recycle responsibly.

Local disposal regulations
Dispose of in accordance with local regulations.

Hazardous waste code
Not regulated.

Waste from residues / unused products
Dispose of in accordance with local regulations.

Contaminated packaging
Dispose of in accordance with local regulations.

14. Transport information

DOT
Not regulated as dangerous goods.

IATA
Not regulated as dangerous goods.

IMDG
Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable. This product is a solid. Therefore, bulk transport is governed by IMSBC code.

15. Regulatory information

US federal regulations
This product is not hazardous according to OSHA 29CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)
Not regulated.

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)
Not listed.

CERCLA Hazardous Substance List (40 CFR 302.4)
Not listed.

Superfund Amendments and Reauthorization Act of 1986 (SARA)
Hazard categories
Immediate Hazard - No
Delayed Hazard - No
Fire Hazard - No
Pressure Hazard - No
Reactivity Hazard - No

SARA 302 Extremely hazardous substance
Not listed.

SARA 311/312 Hazardous chemical
No

SARA 313 (TRI reporting)
Not regulated.

Other federal regulations
Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
Not regulated.

Safe Drinking Water Act (SDWA)
Not regulated.

US state regulations

US. Massachusetts RTK - Substance List
Calcium sulfate dihydrate (alternative CAS 10101-41-4) (CAS 13397-24-5)

*A "Yes" indicates this product complies with the inventory requirements administered by the governing country(s).
A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

16. Other information, including date of preparation or last revision

Issue date 12-February-2014
Revision date 20-March-2017
Version # 02

Further information

Crystalline silica: Raw materials in this product may contain respirable crystalline silica. Exposures to respirable crystalline silica are not expected during the normal use of this product. However, actual levels must be determined by workplace hygiene testing. Prolonged and repeated exposure to airborne free respirable crystalline silica can result in lung disease (i.e., silicosis) and/or lung cancer.

This product is not manufactured with asbestos.
