

# 1. Identification

Product identifier	SHEETROCK® Brand All Purpose II Joint Compound, Ready-Mixed
Other means of identification	
SDS number	61000010009
Synonyms	Joint Compound (Ready-Mixed), Taping Compound, Mud, Finishing Compound
Recommended use	Interior use.
<b>Recommended restrictions</b>	Use in accordance with manufacturer's recommendations.
Manufacturer / Importer / Suppli	er / Distributor information
Company name	United States Gypsum Company
Address	550 West Adams Street
	Chicago, Illinois 60661-3637
Telephone	1-800-874-4968
Website	www.usg.com

# 2. Hazard(s) identification

Emergency phone number 1-800-507-8899

Physical hazards Health hazards OSHA defined hazards	Not classified. Not classified. Not classified.
Label elements	
Hazard symbol	None.
Signal word	None.
Hazard statement	None.
Precautionary statement	
Prevention	Observe good industrial hygiene practices.
Response	Get medical attention/advice if you feel unwell.
Storage	Store as indicated in Section 7.
Disposal	Dispose of in accordance with local, state, and federal regulations.
Hazard(s) not otherwise classified (HNOC)	Not classified.

# 3. Composition/information on ingredients

Mixtures			
Chemical name		CAS number	%
Limestone		1317-65-3	> 70
Attapulgite		12174-11-7	< 5
Mica		12001-26-2	< 5
Composition comments 4. First-aid measures	All concentrations are in percent by weigh Raw materials in this product contain resp percent of respirable crystalline silica foun respirable crystalline silica has been lower compliance dates of June 23, 2017 for con Testing of this product and its constituents use of this product will not result in expose OSHA PEL. However, actual exposures to determined by workplace hygiene testing.	birable crystalline silica as an imp ad in this product is < 0.7%. The red to 0.05 mg/m3, effective Jun nstruction and June 23, 2018 for s suggests that under normal cor ure to respirable crystalline silica o respirable crystalline silica on a	OSHA PEL for e 23, 2016 with general industry. nditions the expected that exceeds the
Inhalation	Dust irritates the respiratory system, and injured person into fresh air and keep person symptoms persist.		
Skin contact	Contact with dust: Rinse area with plenty persists.	of water. Get medical attention it	firritation develops or
Eye contact	Dust in the eyes: Do not rub eyes. Flush t assistance.	horoughly with water. If irritation	occurs, get medical
SHEETROCK® Brand All Purpose	II Joint Compound, Ready-Mixed		SDS U

Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Dust may irritate eyes and mucous membranes of the nose, throat and upper respiratory system causing sneezing and/or coughing. May cause allergic skin disorders in sensitive individuals.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved.
5. Fire-fighting measures	
Suitable extinguishing media	Use fire-extinguishing media appropriate for surrounding materials.
Unsuitable extinguishing media	Not applicable.
Specific hazards arising from the chemical	Not a fire hazard.
Special protective equipment and precautions for firefighters	Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment/instructions	Use standard firefighting procedures and consider the hazards of other involved materials.
Specific methods	Cool material exposed to heat with water spray and remove it if no risk is involved.
6. Accidental release meas	sures
Personal precautions, protective equipment and emergency procedures	See Section 8 of the SDS for Personal Protective Equipment.
Methods and materials for containment and cleaning up	Large Spills: Scoop spilled materials and recover as much of the product as possible for use. If spillage is unrecoverable dispose according to local, state, and federal regulations.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
Environmental precautions	Avoid discharge to drains, sewers, and other water systems.
7. Handling and storage	
Precautions for safe handling	Avoid inhalation of dust and contact with skin and eyes. Minimize dust generation and accumulation. In case of insufficient ventilation, wear suitable respiratory equipment. Observe good industrial hygiene practices. Use proper lifting techniques.
Conditions for safe storage, including any incompatibilities	Store in a cool, dry, well-ventilated place. Store in a closed container away from incompatible materials. Protect from moisture. Keep away from heat. Do not use if material has spoiled, i.e., there is a moldy appearance or an unpleasant odor. Keep containers closed when not in use.
	Filled 4.5 gallon pails of joint compound may be stacked a maximum of 3 layers high on a standard 48 x 48 pallet (16 pails per layer, 3 layers high). Pallets may only be stacked a maximum of two high.
	Filled cartons of joint compound may be stacked a maximum of 3 layers high on a standard 42 x 42 or 42 x 48 pallet (16 pails per layer, 3 layers high). Pallets may only be stacked a maximum of two high.

# 8. Exposure controls/personal protection

#### **Occupational exposure limits**

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Туре	Value	Form
Limestone (CAS 1317-65-3)	PEL	5 mg/m3	Respirable fraction.
		15 mg/m3	Total dust.
US. OSHA Table Z-3 (29 CFR 191	0.1000)		
Components	Туре	Value	
Mica (CAS 12001-26-2)	TWA	20 mppcf	
US. ACGIH Threshold Limit Value	es la		
Components	Туре	Value	Form
Mica (CAS 12001-26-2)	TWA	3 mg/m3	Respirable fraction.

#### US NIOSH Pocket Guide to Chemical Hazards: Recommended exposure limit (REL)

Components	Туре	Value	Form
Limestone (CAS 1317-65-3)	TWA	5 mg/m3 10 mg/m3	Respirable. Total
Mica (CAS 12001-26-2)	TWA	3 mg/m3	Respirable.
Biological limit values	No biological exposure limits noted for the ingredie	ent(s).	
Appropriate engineering controls	Provide sufficient ventilation for operations causing exposure limits and minimize the risk of exposure.		serve occupational
Individual protection measures,	such as personal protective equipment		
Eye/face protection	Wear approved safety goggles.		
Skin protection			
Hand protection	It is a good industrial hygiene practice to minimize contact use suitable protective gloves.	skin contact. For pro	olonged or repeated skin
Other	Normal work clothing (long sleeved shirts and long	g pants) is recommer	nded.
Respiratory protection	If engineering controls do not maintain airborne co limits (where applicable) or to an acceptable level been established), an approved respirator must be purifying respirator as needed to control exposure determine respirator selection, use, and limitations for uncontrolled releases or when air purifying resp respirator protection program requirements (OSHA use.	(in countries where e worn. Use a NIOSH . Consult with respira b. Use positive press pirator limitations ma	exposure limits have not H/MSHA approved air ator manufacturer to ure, air-supplied respirator by be exceeded. Follow
Thermal hazards	None.		
General hygiene considerations	Always observe good personal hygiene measures and before eating, drinking, and/or smoking. Routi equipment separately from regular wash. Observe	nely wash work cloth	ning and protective

# 9. Physical and chemical properties

Appearance	
Physical state	Semi-solid.
Form	Paste.
Color	Off-white.
Odor	Low to no odor.
Odor threshold	Not applicable.
рН	7.5 - 9.9
Melting point/freezing point	Not applicable.
Initial boiling point and boiling range	212 °F (100 °C)
Flash point	Not applicable.
Evaporation rate	Not applicable.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not applicable.
Flammability limit - upper (%)	Not applicable.
Explosive limit - lower (%)	Not applicable.
Explosive limit - upper (%)	Not applicable.
Vapor pressure	Not applicable.
Vapor density	Not applicable.
Relative density	1.4 - 1.8 (H2O=1)
Solubility(ies)	Soluble in water.
Partition coefficient (n-octanol/water)	Not applicable.
Auto-ignition temperature	Not applicable.
Decomposition temperature	Not applicable.

Viscosity	Not applicable.
Other information	
Bulk density	12 - 15 lb/gal
VOC (Weight %)	2 g/l (Calculated by EPA Method 24)
10. Stability and reactivity	
Depathultur	The word of is stable and any mostive condense and the stable of the state of the s

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	None known.
Incompatible materials	None known.
Hazardous decomposition products	Above 1472°F (800°C) limestone (CaCO3) can decompose to lime (CaO) and release carbon dioxide (CO2).

# 11. Toxicological information

Information on likely routes of exposure

Ingestion	May cause discomfort if swallowed.
Inhalation	Airborne dust may irritate throat and upper respiratory system causing coughing.
Skin contact	May cause allergic skin reactions especially in individuals with pre-existing skin disease such as eczema. (See Section 16).
Eye contact	Airborne dust may cause mechanical eye irritation.
Symptoms related to the physical, chemical and toxicological characteristics	Dust may irritate eyes and mucous membranes of the nose, throat and upper respiratory system causing sneezing and/or coughing.

#### Information on toxicological effects

Information on toxicological effe	ects	
Acute toxicity	Not expected to be a hazard under normal conditions of intended use.	
Skin corrosion/irritation	Prolonged or repeated skin contact may cause drying, cracking, or irritation.	
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.	
Respiratory sensitization	Not a respiratory sensitizer.	
Skin sensitization	The product contains a small amount of sensitizing substance which may provoke an a reaction among sensitive individuals after repeated contact. For detailed information, see section 16.	llergic
Germ cell mutagenicity	Data does not suggest that this product or any components present at greater than 0.1 mutagenic or genotoxic.	% are
Carcinogenicity	This product is not expected to increase the risk of cancer.	
IARC Monographs. Overall E	Evaluation of Carcinogenicity	
Attapulgite (CAS 12174-1	11-7) 2B Possibly carcinogenic to humans. 3 Not classifiable as to carcinogenicity to humans.	
Reproductive toxicity	Not expected to be a reproductive hazard.	
Specific target organ toxicity - single exposure	No data available, but none expected.	
Specific target organ toxicity - repeated exposure	Not classified.	
Aspiration hazard	Not an aspiration hazard.	
Chronic effects	Prolonged exposure may cause chronic effects. For detailed information, see section 1	6.
12. Ecological information	1	

Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data available.
Bioaccumulative potential	Bioaccumulation is not expected.
Mobility in soil	No data available.
Other adverse effects	None expected.

#### 13. Disposal considerations

**Disposal instructions** 

Dispose in accordance with applicable federal, state, and local regulations. Recycle responsibly.

Local disposal regulations Hazardous waste code	Dispose of in accordance with local regulations. Not regulated.
Waste from residues / unused products	Dispose of in accordance with local regulations.
Contaminated packaging	Dispose of in accordance with local regulations.
14. Transport information	
DOT	
Not regulated as a hazardous	material by DOT.
IATA Not regulated as a dangerous	aood
IMDG	good.
Not regulated as a dangerous	good.
Transport in bulk according to Annex II of MARPOL 73/78 and	Not applicable.
the IBC Code	
15. Regulatory information	1
US federal regulations	This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

#### US - California Proposition 65 - Carcinogens & Reproductive Toxicity (CRT): Listed substance

Attapulgite (CAS 12174-11-7)

#### International Inventories

All components of this product are in compliance with the listing Requirements of the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

#### 16. Other information, including date of preparation or last revision

Issue date	21-January-2014
Revision date	02-March-2017
Version #	03
Further information	

Attapulgite: Carcinogenic to experimental animals via a route of exposure not relevant to human exposure per ACGIH.

Skin Sensitization Potential: This product contains an amount of Triazinetriethanol (THT) (CAS No. 4719-04-4) that is within the approved EPA regulated limits. THT can act as a sensitizer. Numerous human studies with concentrations up to 1% yielded negative (no sensitization) results. However, some results showed positive reactions in concentrations <0.5% mostly in persons with eczema.

Crystalline silica: Raw materials in this product may contain respirable crystalline silica as an impurity. Exposures to respirable crystalline silica are not expected during the normal use of this product. However, actual levels must be determined by workplace hygiene testing. Prolonged and repeated exposure to airborne free respirable crystalline silica can result in lung disease (i.e., silicosis) and/or lung cancer.
