

1. Identification

| Product identifier | SHEETROCK® Brand All Purpose Joint Compound (Powdered) | | | |
|--------------------------------------------------------|----------------------------------------------------------|--|--|--|
| Other means of identification | | | | |
| SDS number | 61000020002 | | | |
| Synonyms | Joint Compound, Taping Compound, Mud, Finishing Compound | | | |
| Recommended use | Interior use. | | | |
| Recommended restrictions | Use in accordance with manufacturer's recommendations. | | | |
| Manufacturer/Importer/Supplier/Distributor information | | | | |
| Company name United States Gypsum Company | | | | |
| Address | 550 West Adams Street | | | |
| | Chicago, Illinois 60661-3637 | | | |
| Telephone | 1-800-874-4968 | | | |
| Website | www.usg.com | | | |
| Emergency phone number | 1-800-507-8899 | | | |

2. Hazard(s) identification

| Physical hazards | Not classified. | |
|----------------------|---------------------------------------------------|--------------------|
| Health hazards | Carcinogenicity | Category 1A |
| | Specific target organ toxicity, repeated exposure | Category 2 (Lungs) |
| OSHA defined hazards | Not classified. | |

OSHA defined hazards

Label elements

| Signal word | Danger |
|----------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hazard statement | May cause cancer by inhalation. May cause damage to organs (Lungs) through prolonged or repeated exposure. |
| Precautionary statement | |
| Prevention | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust. Wear protective gloves/protective clothing/eye protection/face protection. |
| Response | If exposed or concerned: Get medical advice/attention. |
| Storage | Store locked up. |
| Disposal | Dispose of contents/container in accordance with local/regional/national/international regulations. |
| Hazard(s) not otherwise classified (HNOC) | None known. |
| Supplemental information | None. |
| | |

3. Composition/information on ingredients

Mixtures

| Chemical name | CAS number | % |
|---------------|------------|------|
| Limestone | 1317-65-3 | > 60 |
| Attapulgite | 12174-11-7 | < 20 |
| Mica | 12001-26-2 | < 20 |

| Starch | | 9005-25-8 | < 5 |
|----------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------|-----------------------|
| Impurities Chemical name | | CAS number | % |
| Crystalline silica (Quartz) | | 14808-60-7 | < 4 |
| | | | |
| Composition comments | All concentrations are in percent by weight. | | |
| | Raw materials in this product contain respirable percent of respirable crystalline silica found in th crystalline silica during the normal use of this pr testing. | nis product is < 4.0%. Expo | sures to respirable |
| I. First-aid measures | | | |
| nhalation | Dust irritates the respiratory system, and may ca injured person into fresh air and keep person ca symptoms persist. | | |
| Skin contact | Contact with dust: Rinse area with plenty of wat persists. | er. Get medical attention if | irritation develops |
| Eye contact | Dust in the eyes: Do not rub eyes. Flush thoroug assistance. | ghly with water. If irritation of | occurs, get medica |
| ngestion | Rinse mouth. Get medical attention if symptoms | occur. | |
| Nost important symptoms/effects, acute and lelayed | Under normal conditions of intended use, this m irritate throat and respiratory system and cause | | to health. Dust ma |
| ndication of immediate nedical attention and special reatment needed | Provide general supportive measures and treat | symptomatically. | |
| General information | Ensure that medical personnel are aware of the | material(s) involved. | |
| 5. Fire-fighting measures | | | |
| uitable extinguishing media | Use fire-extinguishing media appropriate for sur | rounding materials. | |
| Insuitable extinguishing nedia | Not applicable. | | |
| Specific hazards arising from he chemical | Not a fire hazard. | | |
| Special protective equipment and precautions for firefighters | Selection of respiratory protection for firefighting the workplace. Self-contained breathing appara- case of fire. | | |
| Fire fighting equipment/instructions | Use standard firefighting procedures and consid | ler the hazards of other inv | olved materials. |
| Specific methods | Cool material exposed to heat with water spray | and remove it if no risk is ir | volved. |
| eneral fire hazards | No unusual fire or explosion hazards noted. | | |
| 6. Accidental release meas | sures | | |
| Personal precautions, protective equipment and emergency procedures | Use a NIOSH/MSHA approved respirator if there exceeding the exposure limits. See Section 8 of | | |
| Methods and materials for containment and cleaning up | Vacuum up the spilled material. Vacuums used filters. Collect in approved containers and seal s disposal, see Section 13 of the SDS. | | |
| Environmental precautions | Avoid discharge to drains, sewers, and other wa | iter systems. | |
| '. Handling and storage | | | |
| Precautions for safe handling | Minimize dust production when mixing, sanding dust. Wear appropriate personal protective equi industrial hygiene practices and use appropriate | pment. Wash hands after h | |
| Conditions for safe storage, including any incompatibilities | Store in a cool, dry, well-ventilated place. Store materials. Protect from moisture. Keep away fro there is a moldy appearance or an unpleasant of | in a closed container away m heat. Do not use if mate | rial has spoiled, i.e |

11. Toxicological information

Inhalation

Information on likely routes of exposure

Inhalation of dusts may cause respiratory irritation. Prolonged and repeated exposure to airborne respirable crystalline silica can cause silicosis and/or lung cancer.

| Skin contact | Under normal conditions of intended use, this material does not pose a skin hazard. | | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|--|
| Eye contact | Direct contact with airborne particulates may cause temporary irritation. | | |
| Ingestion | May cause discomfort if swallowed. | | |
| Symptoms related to the physical, chemical and toxicological characteristics | Dust may irritate eyes and mucous membranes of the nose, throat and upper respiratory system causing sneezing and/or coughing. | | |
| Information on toxicological effe | ects | | |
| Acute toxicity | Not expected to be a haza | ard under normal conditions of intended use. | |
| Components | Species | Test Results | |
| Starch (CAS 9005-25-8) | | | |
| Acute | | | |
| Dermal | | | |
| LD50 | Rabbit | > 5000 mg/kg | |
| Oral | | | |
| LD50 | Rat | > 50000 mg/kg | |
| Skin corrosion/irritation | Prolonged or repeated ski | n contact may cause drying, cracking, or irritation. | |
| Serious eye damage/eye irritation | Direct contact with eyes m | hay cause temporary irritation. | |
| Respiratory or skin sensitization | | | |
| Respiratory sensitization | Not a respiratory sensitize | | |
| Skin sensitization | | ed to cause skin sensitization. | |
| Germ cell mutagenicity | Data does not suggest that this product or any components present at greater than 0.1% are mutagenic or genotoxic. | | |
| Carcinogenicity | ty Repeated and prolonged exposure to high levels of respirable crystalline silica may cause cancer. | | |
| IARC Monographs. Overall I Crystalline silica (Quartz) NTP Report on Carcinogens Crystalline silica (Quartz) OSHA Specifically Regulate Crystalline silica (Quartz) | (CAS 14808-60-7) (CAS 14808-60-7) d Substances (29 CFR 191 | 1 Carcinogenic to humans. Known To Be Human Carcinogen. | |
| Reproductive toxicity | Not expected to be a repro | | |
| Specific target organ toxicity - single exposure | No data available, but non | | |
| Specific target organ toxicity - repeated exposure | May damage lung tissue t crystalline silica particles. | hrough repeated and prolonged exposure to high levels of respirable | |
| Aspiration hazard | Due to the physical form c | of the product it is not an aspiration hazard. | |
| Chronic effects | Prolonged and routine inhalation of high levels of respirable crystalline silica particles can lead to the lung disease known as silicosis. Some studies show excess numbers of cases of scleroderma, connective tissue disorders, lupus, rheumatoid arthritis, chronic kidney diseases and end-stage kidney disease in workers exposed to respirable crystalline silica. Pre-existing skin and respiratory conditions including dermatitis, asthma and chronic lung disease might be aggravated by exposure. Occupational exposure to respirable dust and respirable crystalline silica should be monitored and controlled. | | |
| 12. Ecological information | 1 | | |
| Ecotoxicity | possibility that large or fre | ed as environmentally hazardous. However, this does not exclude the quent spills can have a harmful or damaging effect on the environment. | |
| Persistence and degradability | No data available. | | |
| Bioaccumulative potential | Bioaccumulation is not expected. | | |
| Mobility in soil | No data available. | | |
| Other adverse effects | None expected. | | |
| 13. Disposal consideration | | | |

| Further information | Crystalline silica: Raw materials in this product may contain respirable crystalline silica. Exposures to respirable crystalline silica are not expected during the normal use of this product. However, actual levels must be determined by workplace hygiene testing. Prolonged and repeated exposure to airborne free respirable crystalline silica can result in lung disease (i.e., silicosis) and/or lung cancer. |
| | Attapulgite: Carcinogenic to experimental animals via a route of exposure not relevant to human exposure per ACGIH. |
