1. Identification

Product identifier: USG Synthetic Gypsum

Other means of identification:
- SDS number: 52000000152
- Synonyms: Agricultural Gypsum

Recommended use: Agriculture or Soil amendment.

Recommended restrictions: Use in accordance with manufacturer's recommendations.

Manufacturer/Importer/Supplier/Distributor information:
- Company name: United States Gypsum Company
- Address: 550 West Adams Street, Chicago, Illinois 60661-3637
- Telephone: 1-800-874-4968
- Website: www.usg.com
- Emergency phone number: 1-800-507-8899

2. Hazard(s) identification

Physical hazards: Not classified.

Health hazards:
- Carcinogenicity: Category 1A

OSHA defined hazards: Not classified.

Label elements

- Signal word: Danger
- Hazard statement: May cause cancer.
- Precautionary statement:
  - Prevention: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection.
  - Response: If exposed or concerned: Get medical advice/attention.
  - Storage: Store locked up.
  - Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC): None known.

Supplemental information: None.

3. Composition/information on ingredients

Mixtures

<table>

</tr>
</tbody>
</table>

Composition comments: All concentrations are in percent by weight.

This product contains a small amount of respirable crystalline silica as an impurity. The weight percent of respirable crystalline silica found in this product is < 0.25%. Exposures to airborne respirable crystalline silica during the normal use of this product must be determined by workplace hygiene testing.
4. First-aid measures

**Inhalation**
Dust irritates the respiratory system, and may cause coughing and difficulties in breathing. Move affected person into fresh air and keep person calm under observation. Get medical attention if symptoms persist.

**Skin contact**
Contact with dust: Rinse area with plenty of water. Get medical attention if irritation develops or persists.

**Eye contact**
Dust in the eyes: Do not rub eyes. Flush thoroughly with water. If irritation occurs, get medical assistance.

**Ingestion**
Rinse mouth. Get medical attention if irritation if symptoms occur.

**Most important symptoms/effects, acute and delayed**
Dust may irritate eyes and mucous membranes of the nose, throat and upper respiratory system causing sneezing and/or coughing.

**Indication of immediate medical attention and special treatment needed**
Provide general supportive measures and treat symptomatically.

**General information**
Ensure that medical personnel are aware of the material(s) involved.

5. Fire-fighting measures

**Suitable extinguishing media**
Use fire-extinguishing media appropriate for surrounding materials.

**Unsuitable extinguishing media**
Not applicable.

**Specific hazards arising from the chemical**
Not a fire hazard.

**Special protective equipment and precautions for firefighters**
Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Fire fighting equipment/instructions**
Use standard firefighting procedures and consider the hazards of other involved materials.

**Specific methods**
Cool material exposed to heat with water spray and remove it if no risk is involved.

6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**
Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. See Section 8 of the SDS for Personal Protective Equipment.

**Methods and materials for containment and cleaning up**
Vacuum up the spilled material. Vacuums used for this purpose should be equipped with HEPA filters. Containers must be labeled. Collect in approved containers and seal securely. For waste disposal, see Section 13 of the SDS.

**Environmental precautions**
Avoid discharge to drains, sewers, and other water systems.

7. Handling and storage

**Precautions for safe handling**
Minimize dust production when mixing, or opening and closing bags. Avoid inhalation of dust. Wear appropriate personal protective equipment if airborne dust levels exceed permissible exposure levels. Wash hands after handling. Observe good industrial hygiene practices and use appropriate lifting techniques.

**Conditions for safe storage, including any incompatibilities**
Store in a dry, well-ventilated place. Store away from incompatible materials. Avoid contact with acids, water, and moisture.

8. Exposure controls/personal protection

**Occupational exposure limits**

Biological limit values

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Provide sufficient ventilation for operations causing dust formation. Observe occupational exposure limits and minimize the risk of exposure.

Individual protection measures, such as personal protective equipment

Eye/face protection
Wear approved safety goggles.

Skin protection
Hand protection
It is a good industrial hygiene practice to minimize skin contact. For prolonged or repeated skin contact use suitable protective gloves.

Skin protection
Other
Normal work clothing (long sleeved shirts and long pants) is recommended.

Respiratory protection
If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. Use a NIOSH/MSHA approved air purifying respirator as needed to control exposure. Consult with respirator manufacturer to determine respirator selection, use, and limitations. Use positive pressure, air-supplied respirator for uncontrolled releases or when air purifying respirator limitations may be exceeded. Follow respirator protection program requirements (OSHA 1910.134 and ANSI Z88.2) for all respirator use.

Thermal hazards
None.

General hygiene considerations
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment separately from regular wash. Observe any medical surveillance requirements.

9. Physical and chemical properties

Appearance

Physical state
Solid.

Form
Powder.

Color
White to off-white.

Odor
Low to no odor.

Odor threshold
Not applicable.

pH
6 - 8

Melting point/freezing point
Not applicable.
Initial boiling point and boiling range  Not applicable.
Flash point  Not applicable.
Evaporation rate  Not applicable.
Flammability (solid, gas)  Not applicable.
Upper/lower flammability or explosive limits
  Flammability limit - lower (%)
  Not applicable.
  Flammability limit - upper (%)
  Not applicable.
  Explosive limit - lower (%)
  Not applicable.
  Explosive limit - upper (%)
  Not applicable.
Vapor pressure  Not applicable.
Vapor density  Not applicable.
Relative density  2.96 (H2O=1)
Solubility(ies)
  Solubility (water)
  0.15 - 0.4 g/100 g (H2O)
Partition coefficient (n-octanol/water)  Not applicable.
Auto-ignition temperature  Not applicable.
Decomposition temperature  2642 °F (1450 °C)
Viscosity  Not applicable.
Other information
  Bulk density  55 - 70 lb/ft³
  Particle size  Varies.
  VOC  0 %

10. Stability and reactivity
Reactivity  Product is stable and non reactive under normal conditions of use, storage and transport.
Chemical stability  Product is stable under normal conditions.
Possibility of hazardous reactions  Hazardous polymerization does not occur.
Conditions to avoid  Contact with incompatible materials. Exposure to moisture.
Incompatible materials  Acids. Crystalline silica in contact with powerful oxidizing agents, such as fluorine, chlorine trifluoride and oxygen difluoride, may cause fires. Crystalline silica will dissolve in hydrofluoric acid and produce a corrosive gas, silicon tetrafluoride.
Hazardous decomposition products  Calcium oxides, carbon dioxide, and carbon monoxide.

11. Toxicological information
Information on likely routes of exposure
  Inhalation  Inhalation of dusts may cause upper respiratory irritation. Prolonged and repeated exposure to airborne respirable crystalline silica can cause silicosis and/or lung cancer.
  Skin contact  Under normal conditions of intended use, this product does not pose a skin hazard.
  Eye contact  Direct contact with airborne particulates may cause temporary irritation.
  Ingestion  May cause discomfort if swallowed.
Symptoms related to the physical, chemical and toxicological characteristics  Dust may irritate eyes and mucous membranes of the nose, throat and upper respiratory system causing sneezing and/or coughing.
Information on toxicological effects
  Acute toxicity  Not expected to be a hazard under normal conditions of intended use.
  Skin corrosion/irritation  Not a skin irritant.
Serious eye damage/eye irritation
- Direct contact with eyes may cause temporary irritation.

Respiratory or skin sensitization
- **Respiratory sensitization**
  - Not a respiratory sensitizer.
- **Skin sensitization**
  - Not a skin sensitizer.
- **Germ cell mutagenicity**
  - Data does not suggest that this product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity
- Repeated and prolonged exposures to high levels of respirable crystalline silica may cause cancer.

- **IARC Monographs. Overall Evaluation of Carcinogenicity**
  - Quartz (Sand) (CAS 14808-60-7) 1 Carcinogenic to humans.

- **NTP Report on Carcinogens**
  - Quartz (Sand) (CAS 14808-60-7) Known To Be Human Carcinogen.

  - Quartz (Sand) (CAS 14808-60-7) Cancer

Reproductive toxicity
- Not expected to be a reproductive hazard.

Specific target organ toxicity - single exposure
- No data available, but none expected.

Specific target organ toxicity - repeated exposure
- Not classified. For detailed information, see section 16.

Aspiration hazard
- Due to the physical form of the product it is not an aspiration hazard.

Chronic effects
- Prolonged and routine inhalation of high levels of respirable crystalline silica particles can lead to the lung disease known as silicosis. Some studies show excess numbers of cases of scleroderma, connective tissue disorders, lupus, rheumatoid arthritis, chronic kidney diseases and end-stage kidney disease in workers exposed to respirable crystalline silica. Pre-existing skin and respiratory conditions including dermatitis, asthma and chronic lung disease might be aggravated by exposure. Occupational exposure to respirable dust and respirable crystalline silica should be monitored and controlled.

12. Ecological information

Ecotoxicity
- The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

</tr>
</tbody>
</table>

Persistence and degradability
- Calcium sulfate dissolves in water forming calcium and sulfate ions.

Bioaccumulative potential
- None expected.

Mobility in soil
- No data available.

Other adverse effects
- None expected.

13. Disposal considerations

Disposal instructions
- Dispose in accordance with applicable federal, state, and local regulations. Recycle responsibly.

Local disposal regulations
- Dispose of in accordance with local regulations.

Hazardous waste code
- Not regulated.

Waste from residues / unused products
- Dispose of in accordance with local regulations.

Contaminated packaging
- Dispose of in accordance with local regulations.

14. Transport information

DOT
- Not regulated as dangerous goods.

IATA
- Not regulated as dangerous goods.
IMDG
Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable. This product is a solid. Therefore, bulk transport is governed by IMSBC code.

15. Regulatory information

US federal regulations
This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard 29 CFR 1910.1200 (OSHA) and 8 CCR § 5194 (Cal/OSHA).

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)
Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)
Not listed.

SARA 304 Emergency release notification
Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)
Quartz (Sand) (CAS 14808-60-7) Cancer
lung effects
immune system effects
kidney effects

SARA 302 Extremely hazardous substance
Not listed.

SARA 311/312 Hazardous chemical
Yes

SARA 313 (TRI reporting)
Not regulated.

Other federal regulations
Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
Not regulated.

Safe Drinking Water Act (SDWA)
Not regulated.

**Further information**

Crystalline silica: Raw materials in this product contain respirable crystalline silica as an impurity. Exposures to respirable crystalline silica are not expected during the normal use of this product. However, actual levels must be determined by workplace hygiene testing. Prolonged and repeated exposure to airborne free respirable crystalline silica can result in lung disease (i.e., silicosis) and/or lung cancer.
